INTRODUCTION TO THE CHART OF ACCOUNTS

Updated Red Version

Thirteen districts piloted the Chart of Accounts during the fiscal year 1995-96. Throughout the pilot year and during much of fiscal year 1996-97, pilot district representatives met frequently to discuss Chart of Accounts issues, make recommendations, and refine the chart so that it would meet financial reporting needs.

In January 1996, an Orange Version Chart of Accounts was published so that Phase 1 districts which would begin using the Chart of Accounts on July 1, 1996, would have the benefit of revisions. Since that time, pilot district representatives have continued to identify and discuss issues, and make recommendations for improvement to the Financial Policies and Procedures (FPP) Advisory Committee. The result is the Red Version Chart of Accounts, which, in January 1997, the FPP Advisory Committee unanimously voted to propose to the State Board of Education.

All Colorado school districts and Boards of Cooperative Educational Services (BOCES) must use the Red Version Chart of Accounts for financial accounting beginning July 1, 1997.

Process for Review

The FPP Advisory Committee believes this redesigned standard chart of accounts begins to meet the intent of legislation which calls for the creation of a new chart. Furthermore, the FPP Advisory Committee and the Colorado Department of Education (CDE) resolve to review issues as they arise and to make subsequent recommendations to ensure that the chart of accounts improves the ability to meet the intent of the enabling legislation as well as the future financial information needs of the public at large, public school districts, and legislative and regulatory bodies.

Purpose

The chart of accounts was developed in response to 22-44-105 (4) C.R.S., introduced as House Bill 1213 and enacted by the legislature in 1994. The statute includes the following requirements:

Not later than July 1, 1998, the State Board of Education, with input from the Financial Policies and Procedures Advisory Committee, shall establish and implement a statewide financial, student management, and human resource electronic data communications and reporting system that is based on a redesigned standard chart of accounts, a standard information system, and a standard personnel classification system. The Department of Education and all school districts and Boards of Cooperative Services in the state shall use the system to report and obtain necessary financial information.

In redesigning the financial and human resource system the State Board of Education shall adhere to, but is not limited to, the following guidelines:

1. The financial and human resource reporting system shall be based on a redesigned chart of accounts that will make school-to-school and school district-to-school district comparisons more accurate and meaningful;
2. The financial and human resource reporting system shall provide standard definitions for employment positions such that full, accurate disclosure of administrative costs is made within the budgets and the financial statements of every school district;
3. The financial reporting system shall make it possible to collect comparable data by program and school site.

Nothing in this section shall be interpreted to require accounting of salary and benefit costs by school site.

The financial, student management and human resources reporting system shall be available on a pilot basis by July 1, 1995, and shall be completely implemented by July 1, 1996. The electronic data communications reporting system shall be available on a pilot basis by July 1, 1997, and shall be completely implemented by July 1, 1998.

Guidelines for Development

In response to these statutory requirements, the Financial Policies and Procedures Advisory Committee has developed the *Phase I Implementation* version of the chart of accounts. In developing the new chart of accounts, the FPP Committee was guided by the following goals and premises:

1. Develop a structure that is in compliance with state and federal statutory financial reporting requirements.
2. Base the structure and definitions in compatibility with the 1990 edition of the U. S. Department of Education handbook entitled *Financial Accounting for Local and State School Systems*.
3. Retain as many familiar account code features as possible to assist in the transition to the new system in order to minimize the impact on and the number of changes to school district accounting systems.

4. Develop a system that will be compatible with electronic data transmission and processing while utilizing the fewest number of required digits in the account code so as not to overburden the software and hardware systems in school districts.
5. Establish a system that is as understandable as possible.
6. Prepare and define a comprehensive set of terms and coding requirements for uniformity in budgeting, accounting and reporting.
7. Develop a system that is responsive to and will be accepted by the appropriate "approving" bodies.

Required Versus Optional Elements of the System

The system is developed as a comprehensive budgeting, accounting and reporting code structure for use in school district financial management. Some elements of the system are required; others are available for optional use, depending on the district's needs. Required elements are designated in **bold** on the following pages. *See Appendix N, "Rolling to the Bold."*

Note: If a district does not use a particular fund, does not operate a given program or does not provide a specific support service, budgeting, accounting and reporting for these funds, programs, or support services is not required.

Account Codes

Most of the narratives in this document refer to codes for district use rather than to codes for district/BOCES/charter/charter collaborative use. The word BOCES/charter/charter collaborative are omitted intentionally to reduce repetition and increase readability. *Account codes apply to districts, BOCES, charter schools, charter school collaborative and charter school networks unless the narrative states otherwise.*

Component Units

Financial data concerning Component Units of any nature which are included in the district's/BOCES financial statements must also be included in the electronic data file. Similarly, activity that is NOT included in the financial statements should NOT be included in the electronic data file (exception: charter school reporting **must** be included in the data file even if the charter school operations are not included in the financial statements. **In all cases, an independent governmental audit for the charter school operations MUST accompany the district's audit**).

Statutory/Regulatory References for Account Code Elements

The various elements specified in the account code structure are included in compliance with applicable statutes and regulations. Colorado Revised Statutes (C.R.S.), Colorado Code of Regulations (C.C.R.), and the Code of Federal Regulations (C.F.R.) stipulate the requirements for the funds and accounts used by school districts. The following is a list of the account code elements that are included in the account code structure based on the identified statutory or regulatory provisions. *See Appendix B, "Section 22-44-105(4), C.R.S.," for wording of the legislation which called for the creation of a new chart of accounts.*

Note: Changes to these statements and rules have been incorporated into the July 1, 2016 version.

Definitions of Account Code Elements

The first eleven account code elements listed compromise the account string used for electronic data communications. The additional account code elements, which are optional, are available to meet individual district reporting needs. These additional account code elements are removed from the account string for purpose of electronic data communication.

1. **District Code** – a unique identifier tied to each reporting entity.
2. **Administrative Unit** – a unique identifier used to identify the specific administrative unit that the reporting unit is tied to.
3. **School Code** – a unique identifier assigned for every school building at a school district for school site reporting.

4. **Fund** - an independent fiscal and accounting entity with a self-balancing set of accounts for recording cash and other financial resources. It contains all related assets, liabilities and residual equities or balances, or changes therein. Funds are established to carry on specific activities or attain certain objectives of the school district according to special legislation, regulations, or other restrictions.
5. **Location** - a dimension used as a way to identify schools, attendance centers, operational units, buildings, or sites as budgetary units or cost center designators, as a means of segregating costs.
6. **Special Reporting Element (SRE)** - describes the activity for which a service or material object is acquired, much like a function. This element is optional, but may be used with the program element to differentiate program costs.
7. **Program** - a dimension which describes the activity for which a service or material object is acquired. The programs of a school district are classified into six broad areas: Instruction, Support Services, Operation of Non-Instructional Services, Facilities Acquisition and Construction Services, Other Uses, and Reserves.
8. **Source/Object/Balance Sheet** - a combination dimension which is used to identify the *type* of account: Balance Sheet, Revenue (Sources), or Expenditure (Object). Object is the service or commodity obtained.
9. **Job Classification** - a dimension which enables school districts to break down expenditures for salaries and employee benefits by the employee's job classification.
10. **Designated Grant/Project** - an award of financial assistance in the form of cash or a contribution or gift of other assets from another government to an eligible grantee to be used for a specified or designated purpose, activity or facility.
11. **Amount** - the data element to capture the specific amount being reported for the unique combination of reporting elements.
12. **Fiscal Year** - a twelve-month accounting period (July 1 through June 30) to which the annual budget applies.
13. **Instructional Organization** - the general type of school or other organizational entity providing instruction.
14. **Term** - a prescribed span of time when school is open and pupils are under the direction and guidance of teachers.
15. **Special Cost Center** - the smallest segment of a program that is separately recognized in the school district's records, accounts and reports.
16. **Level of Instruction** - a dimension which allows a school district to track activities by areas of instructional, such as pre-school, elementary, secondary, or post-secondary.

Revenue, Expenditure, and Balance Sheet Account Code Structure

All three account types—revenues, expenditures, and balance sheet accounts—use the same basic multidimensional account code structure as shown below:

Regardless of account type, this basic account code structure contains eleven dimensions and the same number of digits in each dimension. Some of the dimensions in the revenue, expenditure, and balance sheet account codes differ in purpose; however, the length, placement, and separation of the dimensions are identical for computer programming purposes. ***Dimensions which are not required for a particular account type and are unused by the district, but are part of the basic account code structure, should be “zero filled.”***

Districts must report at least a minimum level of detail for the dimensions shown in **BOLD**. This minimum required level of detail for each dimension is outlined in Appendix A, “Required Reporting Level.” The required reporting level is also reflected by bold print codes within each section of the Chart of Accounts.

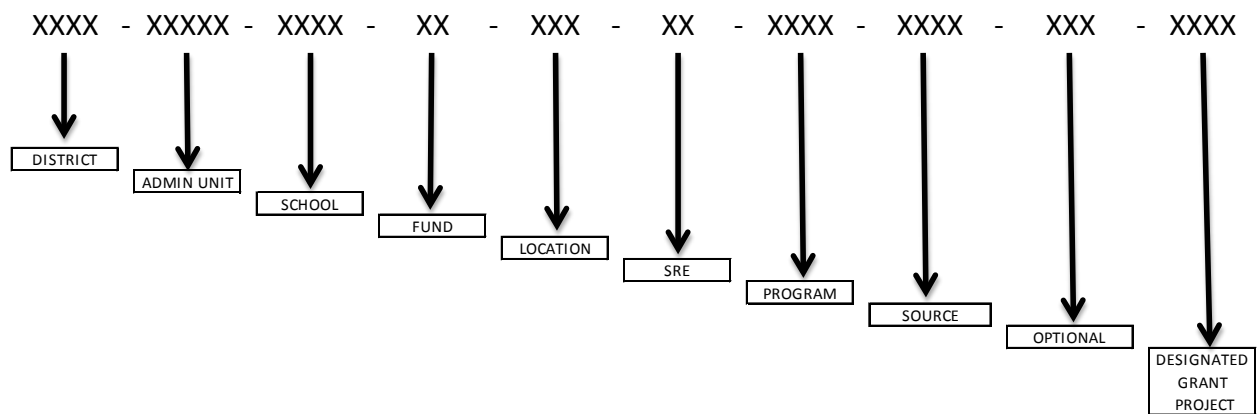

The districts may use nonbold dimensions for local reporting purposes; the Colorado Department of Education will ignore any such codes in these dimensions. An example follows. The program code is a nonbold dimension for revenue accounts; therefore, the program code can be used by the district to track detail associated with revenues. For instance, if a district wanted to identify the specific course for which a tuition payment is made, the course number could be recorded in the program code dimension.

The length of each dimension and the composition of the account code structure are designed to allow districts of any size to code financial transactions. Some districts will desire/require more detail than is provided by the basic account code string; these districts are encouraged to add optional dimensions to their account code string. Optional dimensions must be removed from account code strings prior to Data Pipeline submission.

The following illustrations present the basic account code structure for each account type by a series of Xs and hyphens. Each X designates the placement of a numerical digit (which can include zero) in the account code. These graphics are for illustration purposes and are not intended to provide technical assistance for what the electronic record looks like. Rather, information about the Data Pipeline submission file is provided at the Financial December Data Pipeline website at: http://www.cde.state.co.us/datapipeline/per_december-finance

Revenue Accounts

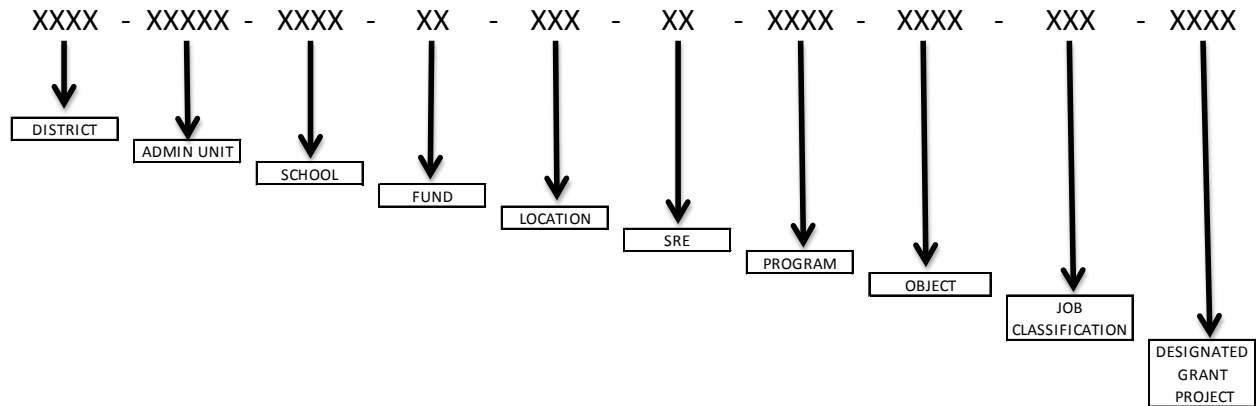

The format and sequencing of the elements in the revenue account code are:

* Location codes are required for charter schools.

Expenditure Accounts

The format and sequencing of the elements in the expenditure account code are:

* Location codes are required for charter schools.

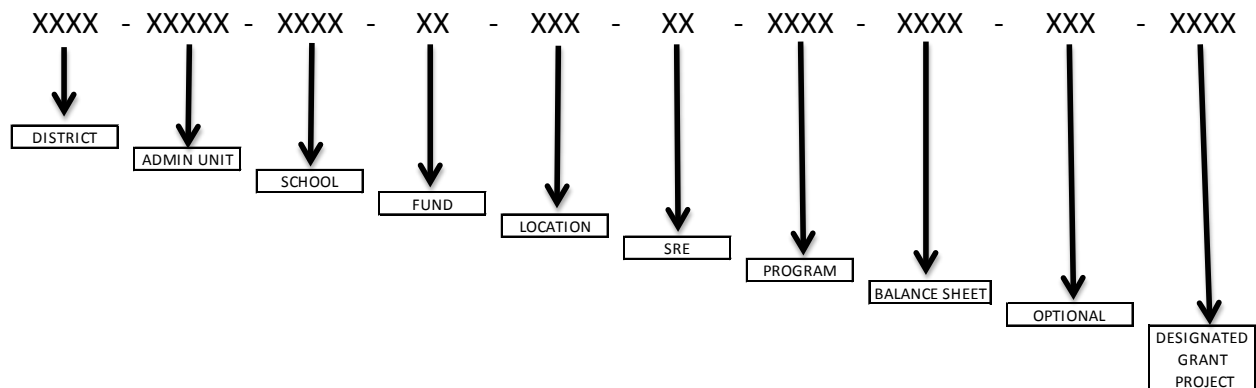

At the discretion of the district, the following are examples of expenditure account dimensions which may be added to the code structure:

- | | |
|-------------------------------|-------------------------|
| 1. Fiscal Year | 4. Special Cost Center |
| 2. Instructional Organization | 5. Level of Instruction |
| 3. Term | |

If these dimensions are used, they must be removed from account code strings prior to Data Pipeline submission.

Balance Sheet Accounts

The format and sequencing of the elements in the Balance Sheet account code are:

Districts must report ALL bolded codes that are applicable to the Colorado Department of Education (CDE), including balance sheet accounts.

Adding Account Codes within Dimensions

Most districts will need to customize this Chart of Accounts to meet local reporting needs. As discussed earlier in this section (under “Revenue, Expenditure, and Balance Sheet Account Code Structure”), districts must report at least to the levels of detail indicated by bold codes; however, most districts will need to report to higher level(s) of detail at least for certain transactions. *Each district must decide what levels of detail are appropriate for providing financial information for decision-making and accountability to management, the board of education, and other local parties.*

The following sections present and define codes for each dimension of the account code string. These codes have been carefully developed with a high degree of input from school districts. The level of detail available from these predefined codes will exceed what is required for many types of transactions. However, almost every district will have instances of transactions where the level of detail available from predefined codes is not sufficient. In areas where it is predictable that districts will want to add codes, this document notes which codes are available for district use. There are a few areas where this document notes that codes are reserved; reserved codes must not be used for purposes other than those specified. A district may need to add codes in an area where there is no indication that codes are available for district use. A district can add codes within the structure of predefined codes as long as data “rolls up” into appropriate bold account types. *See Appendix N, “Rolling to the Bold.”*

FUND

A fund is an independent fiscal and accounting entity with a self-balancing set of accounts for recording the source and use of cash and other financial resources. It contains all related assets, liabilities and residual equities or balances, or changes therein.

Funds are established to carry on specific activities or attain certain objectives of the school district according to special legislation, regulations, or other restrictions for the purposes described.

Fund 01 is reserved for district use in tracking cash funds. The following funds with designated fund numbers are available for use by school districts.

- 10 General Fund** Used to account for *and report* all financial resources *not* accounted for *and reported* in another fund. *GASB 1300.104 and GASB Statement No.54.* Section 22-45-103(1)(a), C.R.S., states that all revenues, except those revenues attributable to the Bond Redemption Fund, the Capital Reserve Fund, the Special Building Fund, the Insurance Reserve Fund, and any other fund authorized by the State Board of Education, shall be accounted for in the General Fund. Any lawful expenditure of the school district, including any expenditure of a nature that could be made from any other fund, may be made from the General Fund.

Typically, categorical programs—such as special education, gifted and talented education, vocational education, transportation and E.L.P.A. (English Language Proficiency Act) are funded by both state categorical revenues and General Fund subsidies. It is recommended that these *categorical programs be reported in the General Fund* rather than in a special revenue fund.

Refer to the note in fund 22, Governmental Designated-Purpose Grants Fund, for additional information regarding supplemental support from the General Fund.

- 11 Charter School Fund.** Used to track financial activities of the charter schools. The district is not required to include charter school transactions in its financial database for normal day to day operations. However, Charter School transactions must be included in the district's database for Data Pipeline submission reporting. When charter school transactions are recorded in the district's database, use fund 11. Other funds may also be used to track charter school financial transactions, if applicable, such as Pupil Activity Fund and Governmental Designated-Purpose Grants Fund. Location codes 900 through 969, which are reserved exclusively for charter schools, must be used to identify specific charter schools within the district. *See Appendix K, "Charter Schools,"* for an explanation of charter school reporting requirements.

- 18 Risk-Management Sub-Fund of the General Fund (optional).** If used, this fund allows you to separate your risk management accounting, and maintain a self-balancing set of records specific to risk management insurance reserve requirements for transfers made to the fund. Used to account for the purposes and limitations specified by Section 22-45-103(1)(e), C.R.S., and used to account for financial transactions as identified in Section 24-10-115, C.R.S. Funds 10, 18, and 63/64 are the only funds available for risk-management purposes pursuant to 22-45-103(1)(e), C.R.S.
- 19 Colorado Preschool Program (CPP) Sub-Fund of the General Fund (optional).** *If used, this fund allows a district to separate the Colorado Preschool Program accounting, and maintain a self-balancing set of records specific to the Colorado Preschool Program requirements for allocations. Used to account for the purposes and limitations specified by Section 22-28-108(5.5) C.R.S.*

Any other moneys of the district that may be used to pay the costs of providing preschool services directly to children enrolled in the district's preschool program pursuant to article 28 of this title may be deposited in the preschool program fund of the district. However, grant code 3141 must be used to identify CPP allowable expenditures from the fund shall only be made to pay the costs of providing preschool services directly to children enrolled in the district's preschool program pursuant to article 28 of this title. Such costs shall include teacher and paraprofessional salaries and benefits, supplies and materials, home visits, the entire cost of any preschool program contracted services, the costs of their parents, any associated professional development activities, costs that a district would not otherwise have incurred but for the services provided in conjunction with the five percent of such overhead costs. Any moneys remaining in the fund at the end of the year shall remain in the fund.

CPP Allocations may be made to fund 11 for charter schools. The charter schools must use the appropriate grant code of 3141 (CPP preschool) for all accounts related to CPP. If any of the allocation remains unused at the end of the fiscal year, a "reservation of fund balance" (balance sheet code 6724) must be identified within the equity section of Fund 11 using the appropriate grant code. If fund 19 is used, grant code 3141 must be used to isolate CPP allowable activities.

SPECIAL REVENUE FUNDS

Used to account for *and report* the proceeds of special revenue sources that are restricted or committed to expenditure for specified purposes *other than debt service or capital projects. GASB 1300.105 and GASB Statement No. 54.* A separate fund may be used for each restricted/committed source. The following special revenue funds are designated for use by school districts.

- **06 Supplemental Capital Construction, Technology, and Maintenance Fund.** (special revenue) The revenue from a tax levied for the purpose of providing ongoing cash funding for the capital construction, new technology, existing technology upgrade, and maintenance needs of a school district, and no other money other than interest and income credited to the fund, shall be deposited in the supplemental capital construction, technology, and maintenance fund of the district. Used to account for the purposes and limitations specified by Section 22-45-103(j) C.R.S. If determined to be special revenue in nature.

Note: Fund 06, this optional fund being used by districts would not roll to fund 20 and would be isolated for data pipeline and auditor's integrity report purposes.

- 21 Food Service Fund.** Used to record financial transactions related to food service operations. If the district receives USDA school breakfast/lunch money, this fund is required, and if not required to be used is not available for use by non-school food authorities.
- 22 Governmental Designated-Purpose Grants Fund.** Used to record financial transactions for grants received for designated programs funded by federal, state or local sources. *If the program is identified by a Catalog of Federal Domestic Assistance (CFDA) number (except food service programs which are required to use fund 21), it is recommended that the applicable program be reported in this fund.*

Note: If there is supplemental support from the General Fund, the General Fund portion should be shown in the General Fund as an expenditure or transfer. The Designated-Purpose Grants Fund portion should be shown as an expenditure in the Governmental Designated-Purpose Grants Fund. The local/state supplemental funding must not be coded to the federal grant code used.

The designated grant/project element of the account code in both the General Fund and the Governmental Designated-Purpose Grants Fund must contain the same designated grant program number, if reportable by the specific grant.

- 23 Pupil Activity Special Revenue Fund.** Used to record financial transactions related to school-sponsored pupil intrascholastic and interscholastic athletic and other related activities. These activities are supported in whole or in part by revenue from pupils, gate receipts, and other fund-raising activities. When activities of student organizations are reported as a special revenue fund, revenues and expenditures must be recorded at the level of detail identified in bold print. If such activities are reported as an agency fund, fund 74 is to be used to record transactions. Fund 74 allows reporting at a different level of detail; see fund 74 description. *Appendix C, "Pupil Activity,"* shows by example the different levels of detail required for pupil activity recording in fund 23 and in fund 74.

Appendix C also includes statutory references related to reporting fees. Use fund 23 if general fund subsidies are likely. General Fund subsidies are not allowed for fund 74.

- 24 Full-Day Kindergarten Mill Levy Override Fund.** The revenues from a tax levied pursuant to Section 22-54-108.5 C.R.S. for the purpose of paying excess full-day kindergarten program costs shall be deposited in the full-day kindergarten fund of the district. The revenues from a tax levied pursuant to Section 22-54-108.5 C.R.S. to meet to capital construction needs associated with a district's full-day kindergarten program shall be credited to the capital construction account in the district's full-day kindergarten fund. Any moneys remaining in the fund at the end of any fiscal year shall remain in the fund and shall be used to reduce the levy for excess full-day kindergarten program costs in future years
- 25 Transportation Fund.** Used to account for revenues from a tax levied or fee imposed for the purpose of paying excess transportation costs pursuant to the provisions of Sections 22-40-102(1.7)(a) or 22-32-113(5)(a), C.R.S., respectively. Section 22-45-103(1)(f), C.R.S., requires a district to use this fund when such a tax is levied or such a fee is imposed. When use of this fund is required, transportation categorical program revenues received from the state pursuant to Article 51 of Title 22, C.R.S., also shall be recorded in this fund.

Note: Beginning FY 2005-2006, a District may impose and collect a fee for the payment of excess transportation costs without voter approval. School Districts must deposit any revenues received from the imposition of the fee in the Transportation Fund (Fund 25 – Special Revenue Fund) of the District. House Bill 05-1191

Special revenue fund codes 26 through 29 are available for district use. When used these funds are considered "Other Special Revenue" funds. Funds 26 through 29 roll to Fund 20 for Data Pipeline purposes.

DEBT SERVICE FUND

Used to account for and report resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated. The use of the Bond Redemption Fund for non voter-approved debt is not permitted by Colorado Revised Statutes. C.R.S. 22-45-103(b)(III) GASB 1300.107 and GASB Statement No.54.

- 31 Bond Redemption Fund.** Used to account for the accumulation of resources for and the payment of principal, interest, and related expenses on long-term general obligation debt or long-term voter-approved lease-purchase debt.

39 Certificate of Participation (COP) Debt Service Fund (Optional). A debt service type fund may be established to allow school districts to account for the accumulation of resources and payment of principal, interest, and related expenditures on any COP debt. Do not use this code for voter-approved debt.

Additional Language: Funds 32-38 roll to Fund 31, and should not be used for non-voter approved debt.

CAPITAL PROJECT FUNDS

Used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays acquisition or construction of major capital facilities and other capital assets (other than those financed by proprietary funds and trust funds). GASB 1300.106 and GASB Statement No. 54.

41 Building Fund. Used to account for all resources available for acquiring capital sites, buildings, and equipment. Examples of such resources include bond sale proceeds, grants, donations, and interfund transfers. Fund 41 required to be used for Bond sales reported to capital acquisitions.

42 Special Building and Technology Fund. Used to account for all resources generated by taxes levied pursuant to Section 22-45-103(1)(d), C.R.S., for the construction of schools (e.g., the acquisition of land and construction of structures) or for the acquisition of instructional computer technology. If a district levies the tax, this fund is required.

43 Capital Reserve Capital Projects Fund. Used to account for the purposes and limitations specified by Section 22-45-103(1)(c), C.R.S., including the acquisition of sites, buildings, equipment, and vehicles. Fund 43 CAN be used for a capital reserve fund which is classified as a capital projects fund.

THIS FUND IS NO LONGER REQUIRED DUE TO THE CHANGES IMPLEMENTED UNDER GASB STATEMENT NO. 54 AND THE STATUTORY CHANGES THAT ELIMINATED THE REQUIRED ALLOCATIONS. HOWEVER, ANY MONEYS REMAINING IN THIS FUND AT THE END OF FY08-09 NEED TO BE SPENT IN ACCORDANCE WITH SECTION 22-45-103(1)(C). MONEYS REMAINING IN THIS FUND AT THE END OF FY08-09 CAN ONLY BE TRANSFERRED FUND 18 (RISK-MANAGEMENT SUB-FUND OF THE GENERAL FUND), OR SPENT APPROPRIATELY PER STATUTE. DISTRICTS MAY TRANSFER MONEYS INTO AND OUT OF THIS FUND IF THEY WISH TO MAINTAIN A CAPITAL RESERVE TYPE FUND THAT ADHERES TO SECTION 22-45-103(1)(C) STATUTORY REQUIREMENTS.

- **46 Supplemental Capital Construction, Technology, and Maintenance Fund.**
(capital project fund) The revenue from a tax levied for the purpose of providing ongoing cash funding for the capital construction, new technology, existing technology upgrade, and maintenance needs of a school district, and no other money other than interest and income credited to the fund, shall be deposited in the supplemental capital construction, technology, and maintenance fund of the district. Used to account for the purposes and limitations specified by Section 22-45-103(j) C.R.S. If determined to be capital project in nature.

ENTERPRISE FUNDS

May be used to report any activity for which a fee is charged to external users for goods or services. For example, an enterprise fund may be used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the full costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through use charges. Activities are required to be reported as enterprise funds if any one of the following criteria is met. Governments should apply each of these criteria in the context of the activity's principal revenue sources: The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity. Debt that is secured by a pledge of net revenues from fees and charges and the full faith and credit of a related primary government or component unit is not payable solely from fees and charges of the activity. Laws and regulations require that the activity's costs or providing services, including capital costs, be recovered with fees and charges, rather than with taxes or similar revenues. The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service). GASB 1300.109

51 Not Available for Use.

Note: Enterprise fund codes 52 through 59 are available for district use.
Refer to Appendix P, if any recording internal service funds transactions.

INTERNAL SERVICE FUNDS

Used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and its component units, or to other governmental units, on a cost-reimbursement basis. Internal service funds should only be used if the reporting government is the predominant participant in the activity. Otherwise, the activity should be reported as an enterprise fund. GASB 1300.110 The recording of user fee revenue generated by charging other funds within the district for services provided when such services are accounted for in internal service funds causes a double counting of revenues and expenditures when data from all funds are aggregated. To prevent the overstatement of revenue and expenditure amounts on CDE reports for financial reporting purposes, districts

must code revenues to the appropriate source codes (1973-1978). Examples of internal service funds include central warehousing and purchasing, central data processing, and central printing and duplicating. See Appendix P, "Internal Service Funds," for information about recording internal service fund transactions.

63 Risk-Related Activity Fund. Used if a second fund in addition to fund 64 below is needed; CDE will combine ("roll") fund 63 into fund 64 for data reporting purposes. Used to account for financial transactions for services that are purchased from an Internal Service Fund by other funds (cost-recovery basis). Included is self-insurance covering the district and its employees. Fund 63 may be used for property risk-management and to purchase liability, workers' compensation, and other insurance types from which other funds purchase these services. The applicable expenditures are reported in the originating fund.

64 Risk-Related Activity Fund. Used to account for financial transactions for services that are purchased from an Internal Service Fund by other funds (cost-recovery basis). Included is self-insurance covering the district and its employees. Fund 64 may be used for property risk-management and to purchase liability, workers' compensation, and other insurance types from which other funds purchase these services. The applicable expenditures are reported in the originating fund. **Note:** Internal service fund codes 61 through 62 and 65 through 69 are available for district use.

FIDUCIARY FUNDS (Trust and Agency Funds)

Used to account for assets held by a governmental unit in a trustee capacity or as an agent for individuals, private organizations, and/or other governmental units. The key distinction between trust funds and agency funds is that trust funds normally are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held. An agency fund does not involve a formal trust agreement and the government's role is purely custodial.

72 Private-Purpose Trust Fund. Used to report any trust arrangement under which the principal and/or income benefit individuals or organizations and the funds are not used as part of the operations of the district. An example of a private-purpose trust would be a formal agreement to provide scholarships to students in the district. **Note:** this fund may be used for expendable or non-expendable scholarship programs

73 Agency Fund. Used to account for assets held for other funds, governments or individuals. Agency funds are custodial in nature and do not involve measurement of operations. Agency funds generally serve as clearing accounts.

74 Pupil Activity Agency Fund. Used to record financial transactions related to school-sponsored pupil organizations and activities. These activities are self-supporting and do not receive any direct or indirect district support within fund 74. For agency funds, revenue and expenditures are reported in total; therefore, the Pupil Activity Agency Fund does not require the same level of detail as the Pupil Activity Special Revenue Fund (fund 23). Revenue may be recorded to a single source code, such as 1700. All expenditures may be reported using a single program-object combination, such as 1900.0890. Appropriate location codes must be used. *Appendix C, "Pupil Activity,"* shows by example the different levels of detail required for pupil activity recording in fund 23 and in fund 74. Appendix C also includes statutory references related to reporting fees.

PERMANENT FUND

79 Permanent Funds should be used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs – that is, for the benefit of the government or its citizenry. Permanent funds do not include private purpose trust funds) GASB 1300.108.

OTHER

85 Foundations – Accounting for Foundations. Funds 85-89 are used for reporting foundations or other non-charter school discretely presented component units. Funds 85-89 will roll to Fund 85.

90 District Reporting Element. Used with Balance Sheet Codes 7511, 7512, 7513, 7514, 7515, and 7519 (contra account) to report District Debt. Refer to Appendix R for specific examples and the level of detail on reporting district debt. Also used with Source Codes 1170, 1171, 1172, 1173, 1174 and 1179 to report voter approved Override Revenues.

LOCATION

The location dimension is used as a way to identify organizational units such as:

1. schools,
2. attendance centers,
3. operational units,
4. buildings,
5. sites,
6. budgetary units,
7. cost centers.

Identification of such organizational units provides a convenient way to budget and segregate expenditures by organizational unit. Also, the location code can assist with payroll check distribution.

The location dimension is structured to allow for identification of the type of activity (such as instructional or support) and the organization group (such as elementary school, middle school, or high school). This enables the sorting and aggregation of data for reporting purposes. Location codes greater than 599 are used for cost centers, rather than specific buildings.

When compiling reports to reflect school district expenditures, the Colorado Department of Education (CDE) will use location codes in conjunction with program codes to report school district instructional programs by level. However, the CDE will use program codes only--rather than program codes and location codes--to report school district support expenditures.

Note for BOCES: See Appendix D, "BOCES," for an example of how to maintain the required recording structure for location codes while identifying various school districts served.

100 Elementary Schools. Normally classified as elementary instruction by state and local practice and composed of any span of grades from pre-school through but not above grade 8. Do not use location codes in the 100 series for charter schools; districts must use location codes 900 through 919 for elementary charter schools.

Example:

- | | |
|-----|-------------------------|
| 101 | Adams Elementary School |
| 102 | Baker Elementary School |

Note: Location codes 001 through 099 are available if needed for district use to identify elementary schools.

200 Middle (Junior High) Schools. Normally falls between an elementary school and a high school and usually consists of some combination of grades between grades 5 and 9. Do not use location codes in the 200 series for charter schools; districts must use location codes 920 through 929 for middle school charter schools.

Example:

201	Columbine Middle School
202	Deer Creek Junior High School

300 Senior High Schools. Comprises any span of grades beginning with the next grade following a middle (junior high) school and ending with grade 12. Do not use location codes in the 300 series for charter schools; districts must use location codes 930 through 939 for high school charter schools.

Example:

301	East High School
320	Franklin Alternative High School

400 Vocational/Technical Schools. Used to designate secondary schools which are separately organized for the purpose of offering education and training in vocational and/or technical skills and occupations. Do not use location codes in the 400 series for charter schools; districts must use location codes 940 through 949 for vocational/technical charter schools.

Example:

401	Grand Vocational School
402	Highland Technical School

461-469 On-Line Activity. Used to designate where on line activity is taking place. Location codes 461 through 469 are available and are Bolded: i.e. location 463 does not roll to 461, it rolls to 463. A unique and specific location code should be used for each on-line school or program within the District. Charter schools with on-line activities should use the 900-969 charter school location codes. **Note:** all on-line school and program location codes are bolded and on-line school and program detailed activities must be reported (reporting of single purchase service account for online is not allowable).

500 Combination Schools. Schools that house on a permanent basis more than one type of instructional organization; e.g. an elementary school and a middle school. Do not use location codes in the 500 series for charter schools; districts must use location codes 950 through 969 for combination charter schools.

Example:

501	Combined Elementary/Middle (Junior High) Schools
502	Combined Middle (Junior High)/Senior High Schools
503	Combined Elementary/Middle/High Schools
509	Other Combined Schools

600 Centralized Services. Activities or services associated with district-wide or centralized administration, program direction, curriculum services, business services, and related support services. (This category includes the board of education; superintendent; centralized administration and support for instructional, curriculum, media, special education, athletics, and other programs; and district-wide staff development, human resources, payroll, accounting, information systems, etc.) **Note:** Not to be used with charter schools.

700 Service Center(s). Centralized operations for *specific support activities* rather than for buildings or facilities. **Note:** Not to be used with charter schools.

Example:

710	Operations and Maintenance Center
720	Transportation Center
730	Warehouse
740	Food Service Center

800 District-wide Costs. Costs which are not directly associated with district operations, programs, activities or services, and which are not related to the level of services provided by the district. (Such costs include principal and interest on debt; bond issuance costs; property, liability, unemployment and workers' compensation insurance; judgments or legal claim settlements; etc.) **Note:** Not to be used with charter schools.

900-969 Location codes 900 through 969 are ***reserved for district use for charter schools only.*** All charter school transactions reported in the district's Data Pipeline submission file **MUST BE** coded to appropriate locations in this range. See *Appendix K, "Charter Schools,"* for an explanation of charter school reporting requirements. All charter school location codes are bolded: i.e. location 903 does not roll to 900, it rolls to 903.

900 – 919 Elementary Charter Schools. Location codes 900 through 919 must be used for elementary charter schools.

920 – 929 Middle School Charter Schools. Must be used for middle school (junior high) charter schools.

930 – 939 High School Charter Schools. Must be used for high school charter schools.

940 – 949 Vocational/Technical Charter Schools. Must be used for vocational/technical charter schools.

950 – 969 Combination Charter Schools. Location codes 950 through 969 must be used for *combination* charter schools.

970 Other Operational Units. Location codes 970 through 989 are available for district use for other operational units not specified elsewhere.

Example: 971 Athletic Stadium

990 Private/Parochial Schools. Used to identify private or parochial schools. Location codes 990-999 are available for district use.

SPECIAL REPORTING ELEMENT

In the instances defined below, the Special Reporting Element describes the activity for which a service or material object is acquired. The SRE's of a school district are classified into six broad areas: Instruction, Support Services, Non-Instructional Services, Facilities Acquisition and Construction Services, Other Uses, and Reserves. SREs and sub-SREs consist of activities which have somewhat the same general operational objectives. Categories of activities comprising each of the divisions and subdivisions are grouped according to the principle that the activities can be combined, compared, related, and mutually exclusive.

The use of the SRE is voluntary. Nonetheless and as with all non-required (non-bolded) items, it is recommended that if a district chooses to implement this element, it follow the scheme provided below.

Note: the one non-optional exception to this is SRE code 95. SRE 95 is used to identify Consolidated School wide Plans.

- 10 Instruction. Instruction includes the activities dealing directly with the interaction between teachers and students. Teaching may be provided for students in a school classroom, in another location such as a home or hospital, and in other learning situations such as those involving cocurricular activities. It also may be provided through some other approved media such as television, radio, telephone, and correspondence. Included here are the activities of paraprofessionals, aides, classroom assistants, clerks, or graders, and the use of teaching machines or computers which assist in the instructional process of interaction between teachers and students.
 - 11 Regular Education.
 - 12 Special Education.
 - 13 Vocational Education.
 - 14 Cocurricular Education/Activities.
 - 15 Adult Education for K-12 Students.
 - 19 Other Education.

- 20 Support Services. Support services provide administrative, technical (such as guidance and health), and logistical support to facilitate and enhance instruction. These services exist as adjuncts for fulfilling the objectives of instruction, community services, and enterprise programs.
 - 21 Students. Activities designed to assess and improve the well-being of students and to supplement the teaching process.
 - 22 Instructional Staff. Activities associated with assisting the instructional staff with the content and process of providing learning experiences for students.
 - 23 General Administration. Activities concerned with establishing and administering policy for operating the school district.

-
- 24 School Administration. Activities concerned with overall administrative responsibility for a school or combination of schools.
 - 25 Business. Activities concerned with paying, transporting, exchanging, and maintaining goods and services for the school district. Included are the fiscal and internal services necessary for operating the school district.
 - 26 Operation and Maintenance of Plant. Activities concerned with keeping the physical plant open, comfortable, and safe for use, and keeping the grounds, buildings, and equipment in effective working condition and state of repair. These include the activities of maintaining safety in buildings, on the grounds, and in the vicinity of schools.
 - 27 Student Transportation. Activities concerned with conveying students to and from school, as provided by state and federal law. These activities include trips between home and school, and trips to school activities.
 - 28 Central. Activities, other than general administration, which support each of the other instructional and support services programs. These activities include planning, research, development, evaluation, information, staff, and data processing services.
 - 29 Other. All other support services not classified elsewhere in the 20 series.
- 30 Non-Instructional Services. Activities concerned with providing non-instructional services to students, staff or community.
- 31 Food Services Operations. Activities concerned with providing food to students and staff in a school or school district. This service area includes preparing and serving regular and incidental meals, lunches, or snacks in connection with school activities and food delivery.
 - 32 Enterprise Operations. Activities that are financed and operated in a manner similar to private business enterprises - where the stated intent is that the costs are financed or recovered primarily through user charges.
 - 33 Community Services Operations. Activities concerned with providing community services to students, staff or other community participants. Examples of this function would be the operation of a community swimming pool, a recreation program, a child care center, etc.
 - 34 Education for Adults. Activities concerned with providing services for adults.
- 40 Facilities Acquisition and Construction Services. Activities concerned with acquiring land and buildings; remodeling buildings; constructing buildings and additions to buildings; initially installing or extending service systems and other built-in equipment; and improving sites.

Activities concerned with preparing and interpreting descriptions of specific space requirements for the various learning experiences of students to be accommodated in a building. These specifications are interpreted to the architects and engineers in the early stages of blueprint development.
 - 45 Building Acquisition and Construction Services. Activities concerned with acquiring or constructing buildings.
 - 46 Building Improvement Services. Activities concerned with building additions and with installing or extending service systems and other built-in equipment.
 - 49 Other Facilities Acquisition and Construction Services. Facilities acquisition and construction activities which cannot be classified above.
- 50 Other Uses. A number of outlays of governmental funds are not properly classified as expenditures, but still require budgetary or accounting control. These are classified under *Other Uses*. These include debt service payments (principal and interest) and certain transfers of moneys from one fund to another.
- 51 Debt Service. Servicing the debt of the school district, including payments of both principal and interest, and debt issuance costs. The receipt and payment of principal on short-term loans are handled as an adjustment to balance sheet account 7451.
- 52 Fund Transfers. Transactions which withdraw money from one fund and place it in another without recourse.

Note: SRE codes 60 through 89 are available for district use.

- 90 Reserves. Consists of moneys Set-Aside for specific purposes and identifies those portions of the fund balance (the excess of revenues over expenditures) which are segregated for future purposes and/or are not available to finance expenditures of the subsequent accounting period. Some reserves are statutorily or constitutionally mandated while others are in compliance with generally accepted accounting principles or practices.

SRE codes for reserves are used in budgeting only. A budget transfer may be made from the reserve to the expenditure account. Specific reserve types may be identified using the program 9000 series.

- 95 Consolidated School wide Program.** This SRE code identifies Consolidated School wide Programs. It is used in conjunction with a unique location code and/or school code if used for each school wide plan site and Object Code 0855. Object Code 0855 identifies the School wide Plan Distribution, *as an option* to detailed object coding. SRE 95 should be used for the coding of all expenditure activities related to a specific school's school wide plan. SRE should also be used in all General Fund (10) Abatement Accounts and all Governmental Grants Fund (22) or General Fund (10) Grant Accounts for the grant programs that have been included in the specific school wide plan. *See Appendix T, "Consolidated School wide Programs,"* for additional information.

PROGRAM

A program is a plan of activities and procedures designed to accomplish a predetermined objective or set of objectives. The program dimension provides the school district a framework to classify expenditures to determine total costs of attaining such predetermined objectives. The program dimension allows a school district to charge costs, instructional and support, directly to the benefiting program.

INSTRUCTIONAL PROGRAM

Instruction includes those activities dealing directly with the interactions between staff and students. Teaching may be provided for students in a school classroom, in another location such as a home or hospital, or in other locations such as those involving cocurricular activities. Instruction also may be provided through some other approved media such as television, radio, telephone, or correspondence. Included are the activities of paraprofessionals (aides) or classroom assistants of any type which assist teachers in the instructional process.

Training for teachers should not be coded to an instructional program, but to 2213, Instructional Staff Training Services.

Instructional programs are divided into subprograms which are more discrete descriptions of the overall program. These subprograms should not be construed to dictate an organizational structure for the district's programs, departments, classes, etc. Rather, they enable the district to identify the cost elements which may be combined as the district sees fit. In each major program category, a "90" series has been added for "other" for use at the district's discretion. The use of any unassigned codes other than the "90" series is not advisable, as those codes are reserved for possible future designation by CDE.

For reporting purposes, all expenditures assigned to codes 0010 through 2099 will be considered instructional expenditures.

Instructional supplies and materials used in the classroom should be coded to the appropriate instructional program, not to central administration or other support services.

The Financial Policies and Procedures Advisory Committee has designed this dimension of the chart of accounts so that instructional program costs can be identified by specific subject area. Recording expenditures by subject area may be difficult when the curriculum is integrated or when human resources, payroll, and financial systems are not fully integrated. However, instructional program expenditures must be reported *by subject*, to include salaries and benefits and all costs related to the program, *for high school level only*. High school program costs by subject may be recorded using *actual* expenditure amounts or using costs which are determined by any *reasonable method of allocation based actual costs*. The use of program code 0030 General High School Education is restricted to those limited instances in which there

is no feasible way of allocating instructional costs by subject. An example of such a cost that appropriately can be coded to 0030 is substitute teacher costs.

Elementary school and middle school instructional program costs may be reported by subject or, alternatively, may be reported by general education programs 0010 General Elementary Education and 0020 General Middle School Education, or by general education programs 0060 through 0090. A district should choose whichever level of detail is appropriate based upon local reporting needs for the elementary and middle school levels. In order to produce an apples-to-apples comparison, CDE will use *location codes* to aggregate instructional program data reported for elementary and middle schools regardless of whether these data are reported by subject or by a general education program such as 0070 Gifted and Talented or 0080 General Instructional Media.

For a quick overview of instructional program codes, see *Appendix I, "Instructional Program Codes in Brief."*

- 0010 General Elementary Education.** Planned learning activities and experiences that are provided for students in the setting identified by the school district as the elementary school. Typically, this classification includes students from Kindergarten through grades 5 or 6. Alternatively, instructional costs for these students can be coded using subject program codes.
- 0018 Kindergarten through Eighth Grade (K-8).** Planned learning activities and experiences that are provided for students in the setting identified by the school district as a K-8 school. Alternatively, instructional costs for these students can be coded using subject program codes.
- 0020 General Middle/Junior High School Education.** Planned learning activities and experiences that are provided for students in the setting identified by the school district as the middle or junior high school. Typically, this classification includes students from grades 6 or 7 through grades 8 or 9. Alternatively, instructional costs for these students can be coded using subject program codes.
- 0030 General High School Education.** Planned learning activities and experiences that are provided for students in the setting identified by the school district as the high school. Typically, this classification includes students from grades 9 or 10 through grade 12. Instructional costs for these students MUST BE CODED TO SUBJECT PROGRAM CODES 0100 THROUGH 2099. Exceptions to this rule: general instructional program codes 0050 through 0090 may be used if more appropriate; and, program 0030 may be used when there is no feasible way to allocate instructional costs by subject. For instance, high school substitute costs may be coded to program 0030. Also, supplies which are purchased "in common" for the benefit of multiple programs may be coded to program 0030.

However, severance payments must NOT be coded to program 0030; rather, severance payments are coded to program 0090.

- 0040 General Preschool Education.** Planned learning activities and experiences that are provided for preschool students. Typically, these instructional costs help preschool students develop skills for later success in Kindergarten. Day care costs should NOT be charged here; rather, day care costs should be coded to support program 3200 or 3300 series.
- 0050 General Post-Secondary Education for K-12 Students.** Costs associated with K-12 students taking instructional course work at an institution of higher learning such as a community college. Scholarships awarded to students to pursue post-secondary educational opportunities may be charged here. Instructional costs associated with students attending the district's vocational school should NOT be coded to program 0050. Rather, instructional vocational costs are charged to subject program codes 0100 through 2099 for K-12 students, and to support program codes in the 3400 series for adult students.
- 0051 Programs for Adult/Continuing.** A program for adults and out of school youth (typically 16 years of age and older who are not regularly enrolled in school) who have completed, interrupted, or not begun their formal education and are pursuing skills or knowledge in other than regularly prescribed courses. These include adult basic programs and other programs that have as their purpose the upgrading or retraining of occupational skills, the pursuit of special interests or enrichment.
- 0060 General Integrated Education.** Includes planned learning activities and experiences that are provided for students of multiple levels and/or that combine multiple subject areas. An example is a technical research and writing class that cannot be appropriately coded as a writing class nor as a science class since it involves both subject areas.
- 0070 Gifted and Talented Education.** Programs for pupils who have been identified by professionally qualified personnel as being gifted and talented in areas such as academic subjects, fine arts, and vocational and technical areas. Instructional costs for Advanced Placement classes should NOT be coded to program 0070 but, rather, should be coded to the appropriate subject or general education program.
- 0080 General Instructional Media.** Includes planned learning activities and experiences for students which involve the use of media resources. Management and supervision costs of running and maintaining media centers should NOT be charged to instructional program 0080 but, rather, should be charged to the support program 2220 series.

Machinery, furniture, and fixtures (including teacher desks, chairs, and file cabinets), technology equipment, and other equipment that are used for instructional purposes should be charged to appropriate instructional programs.

The district's capital asset policy establishes criteria for when an equipment item must be capitalized and included on the district's property inventory records. Usually this criteria requires equipment costing above a certain dollar amount to be capitalized. Capitalized equipment must be coded with an object 0730 through

0734 or 0736 through 0739. Equipment that does not meet the criteria for capitalization (usually below a dollar amount requiring capitalization) may be coded with object 0735 or in the object 0600 Supplies series.

0739 Other Equipment. Expenditures for all other equipment not classified elsewhere in the 0730 object series.

0740 Depreciation. The portion of the cost of a capital asset which is charged as an expense during a particular period. In accounting for depreciation, the cost of a capital asset, less any salvage value, is apportioned over the estimated service life of such an asset, and each period is charged with a portion of such cost. Through the process, the cost of the asset is ultimately charged off as an expense.

In accordance with fund accounting under GAAP, using depreciation is required in proprietary funds only.

0750 Loss on Disposal. The excess of net book value above the amount received (trade or cash) at disposal. This object is used in proprietary funds only.

0760 Infrastructure. Expenditures for purchased infrastructure assets by the school district. These items include water/sewer systems, roads, bridges, and other assets that have significantly longer useful lives than other capital assets.

0810 Dues and Fees. Expenditures or assessments for membership in professional or other organizations. This includes any fee assessed for membership. 0820 Judgments Against the School District. Expenditures from current funds for all judgments (except as indicated below) against the school district that are not covered by liability insurance, but are of a type that might have been covered by insurance. Only amounts paid as the result of court decisions are recorded here. This would include student transportation liability claims incurred and paid by the school district. Judgments against the school district resulting from failure to pay bills or debt service are recorded under the appropriate expenditure accounts as though the bills or debt service had been paid when due. The proper coding for employee disputes usually is dictated by the terms of the legal settlement (e.g., employee disputes which award compensation should be coded to salary). Code 0820 is appropriate for noncompensation post-employment settlements.

0830 Interest. Expenditures for interest on debt.

0831 Long-term Interest.

0832 Short-term Interest.

0833 Interest on Leases. *See Appendix L, "Capital Leases,"* for information about recording Capital Leases.

0840 Contingency. This account is provided for budgeting purposes only. Expenditures to be paid from the contingency should be charged to the appropriate program and object classification.

0850 Internal Charge/Reimbursement Accounts. Object codes in this series allow a district to charge costs associated with student field trips, maintenance, and other internal services to the programs which benefit from the services. Districts are not required to charge back internal services. Objects 0850 through 0859 will net to zero district-wide. *See Appendix E, "Internal Charge Reimbursement Accounts."* Internal Charge/Reimbursement Account codes are not used in an internal service fund; rather, internal service fund user fees (charge backs) are coded to sources 1973 through 1979.

0851 Transportation/Field trips. Meals and lodging related to field trips must not be coded here, but rather to object 0580.

0852 Maintenance.

0853 Technology/MIS.

Note: Object codes 0856 through 0859 are available for district use.

0860 Miscellaneous Internal Charge Accounts. Accounts in this series, like in the 0850 series, are used to charge back internal services to programs which benefit from the services. However, districts may choose to recognize revenue rather than abate expenditures. *See Appendix J, "Revenue vs. Abatement."* Thus, objects in the 0860 series do not necessarily net to zero.

Note: Object codes 0860 through 0867 are reserved for possible future designation by CDE.

0868 Overhead Costs. Used with non-federal grants/projects.

0869 Indirect Costs. Used with federal grants/projects.

Note: Districts may choose to record indirect costs and overhead costs either as expenditures and revenues, or as abatements. If the expenditure/revenue method is used, object 0869 (indirect costs) or object 0868 (overhead costs) must be used for expenditures, and source 1972 (indirect costs) or source 1971 (overhead costs) must be used for revenues. If the abatement method is used, object 0869 (indirect costs) or object 0868 (overhead costs) must be used for both debits and credits. The choice of appropriate program codes is left to the district. *See Appendix G, "Indirect Costs."*

0870 Scholarship Awards. Amounts paid for scholarships awarded to students to pursue post-secondary educational opportunities.

0890 Miscellaneous Expenditures. Amounts paid for goods or services not properly classified in one of the objects included above. Audit adjustments are recorded as adjustments to revenue (see Revenue Sources 3200).

0900 Other Uses of Funds. This series of codes is used to classify transactions which are not properly recorded as expenditures to the school district but require budgetary or accounting control. These include redemption of principal and interest on long-term debt, housing authority obligations, and fund transfers.

0910 Redemption of Principal. Outlays from current funds to retire serial bonds and long-term loans.

A public school housing authority is a public or quasi-public corporation having power to issue authority bonds for public school purposes, construct public school buildings, lease public school buildings to

local public school administrative units, or transfer title to such units. All expenditures of this nature are classified in this category.

- 0940 Payments to Escrow Agents. Payments made to institutions through escrow agents acting on behalf of the school district.
- 0950 Initial Outlay from Capital Lease (Which is not Capital Outlay). Initial payments made by the school district from capital leases which do not result in the acquisition of capital equipment or facilities. *See Appendix L, "Capital Leases."*
- 0960** Payment to Outside Entity. Funds that a district must send to the Colorado Division of Vocational Rehabilitation (DVR). This payment supports the DVR request for federal government grant award dollars that will be provided to the district. School to Work Alliance Program (SWAP) is the state grant program with this type of arrangement. **Note:** The appropriate grant/project code of 3130 must be used in conjunction with this object code.
- 0970** **Special Items.** This code is used to classify special items in accordance with GASB Statement 34. Included are transactions or events within the control of the school district administration that are either unusual in nature or infrequent in occurrence. For some districts, this may include termination benefits resulting from workforce reductions; or costs in connection with an early retirement program offered to all employees represented in one or more classes of employees. Special items may also include events that are not within the control of the district. In the governmental funds, these items should be separately captioned or disclosed.
- 0971** **Extraordinary Items.** This code is used to classify items in accordance with APB Opinion No. 30 which are transactions or events that are both unusual in nature and infrequent in occurrence. For some districts, this may include significant costs related to a natural disaster caused by fire, flood, tornado, hurricane, or hail storm; or costs related to an environmental disaster.
- 0990 Other Miscellaneous Uses of Funds.

SOURCE CODES (Revenue)

The source dimension is used to describe the funding origin (source) and type of revenue. The first digit of the source code identifies the major source of revenue as local, intermediate, state, federal, or other. These five major sources of revenue are described below.

1. **Local Sources.** Revenue from local sources is the amount of money produced within the boundaries of the school district and available to the district for its use. Money collected by another governmental unit as an agent of the school district is recorded as revenue from local sources.
2. **Intermediate Sources.** Revenue from intermediate sources is revenue distributed by counties, cities, and other intermediate sources. In Colorado, the most common intermediate source is the county.
3. **State Sources.** Revenue from state sources is revenue from funds collected by the state government and distributed to school districts.
4. **Federal Sources.** Revenue from federal sources is revenue from funds collected by the federal government and distributed to school districts. In determining whether revenue is federal revenue, it is unimportant whether the funds are distributed directly to the school district directly from the Federal Government or through some intervening agency (pass-through entity) such as the Colorado Department of Education or other state agency.

When a school district does not have a method for determining the prorated share of federal, state, and other sources of revenue in a commingled grant, the distributing agency should provide this information to the school district.

5. **Other Sources.** This classification includes “other sources” which constitute fund revenues in a strict fund accounting context, but are not considered revenues to the school district. They include proceeds from long-term debt and the receipt of interfund transfers.

Each of the five major sources of revenue is divided into detailed source codes to provide information about the specific type of revenue. Source code definitions follow.

- 1972 Indirect Cost Revenue.** Revenue internal to the district which is generated by charging for costs of a general nature that cannot be readily or accurately identified with specific services. Typically, indirect costs are charged to *grants* for administrative and/or centralized support provided by the district.

Note: Districts may choose to record indirect costs and overhead costs either as expenditures and revenues, or as abatements. If the expenditure/revenue method is used, object 0869 (indirect costs) or object 0868 (overhead costs) must be used for expenditures, and source 1972 (indirect costs) or source 1971 (overhead costs) must be used for revenues. If the abatement method is used, object 0869 (indirect costs) or object 0868 (overhead costs) must be used for both debits and credits. The choice of appropriate program codes is left to the district. *See Appendix G, "Indirect Costs."*

5000 Other Sources

5100 Proceeds From the Sale of Bonds. Proceeds from the sale of general obligation bonds.

5110 Bond Principal

5111 Refunding Bond Proceeds (to segregate for reporting purposes on Federal Reports – required on F-33 Report)

5120 Premium/Discount

5121 Refunding Bond Premium/Discount (to segregate for reporting purposes on Federal Reports – required on F-33 Report)

5130 Accrued Interest

5131 Refunding Bond Accrued Interest (to segregate for reporting purposes on Federal Reports – required on F-33 Report)

- 5200 Fund Transfers.** Transactions which withdraw money from one fund and place it in another without recourse. Unless state law prohibits, revenues should be allocated to the appropriate funds when received, rather than accepted in the general fund and later transferred. Interfund loans are not recorded here, but are handled through the balance sheet accounts. To record the debit side of a transfer, the last two digits of the source code must be used to identify the fund number of the destination fund. An example is: A transfer from the General Fund to the Food Service Fund is coded as 5221, and by nature this carries a debit balance; this is a reduction of revenue out of the General Fund. The corresponding Source code in the Food Service fund would be 5210 and carries a credit balance, and is an increase in revenue. See Revised Appendix F, "Fund Transfers," for an example. Please note that Object Code 0930 is no longer used to record the debit (expenditure) side of fund transfers.
- 5300 Intergrant Transfers.** An Intergrant Transfer is when you transfer revenue, if allowed, from one grant to another, and spend those moneys accordingly. Example: you can transfer Title II Part A "Teacher Quality" grant revenue (grant 4367) over to Title I (grant 4010), and spend the transferred Teacher Quality money as Title I money. You cannot do this with all grants (there is a list of allowable grants in Appendix F-2). See Appendix F-3 for federal set aside transfers.
- 5400 Capital Leases.** Used to classify the acquisition of capital assets through a capital lease agreement instead of using a conventional loan process.
- 5500 Other Long-Term Debt Proceeds including Certificates of Participation.** Proceeds from other long-term debt instruments not captured in the preceding revenue source codes. Included here are Certificates of Participation, and proceeds from Capital Leases.
- 5700 Charter School Allocation.** Used to record the charter school per-pupil allocation that is required by Section 22-30.5-112(2)(a)(III)(A) C.R.S. Source code 5700 must be used to record these charter school allocations. To record the debit side of a revenue allocation, the last two digits of the source code must be used to identify the fund number of the destination fund: fund 11 for charter schools. Example: an allocation from the General Fund to the charter school fund is coded 5711 and, by nature, would carry a debit balance. The corresponding source code in the Charter School Fund is coded 5710.
- 5800 Colorado Preschool Program.** Used only to record the districts CPP allocation. Source code 5800 *may* be used to record these CPP allocations. To record the debit side of an allocation, the last two digits of the source code must be used to identify the fund number of the destination fund: fund 19 for District CPP and Fund 11 for Charter School CPP. Example: an allocation from the General Fund (Fund 10) to the District CPP Fund 19 is coded 5819 and to the Charter School CPP fund 11 is coded 5811. The corresponding source code in the CPP Fund 19

or Fund 11 is 5810. Additional funds transferred to fund 19 should be coded using the 5200 transfer coding structure (see Appendix F).

See Appendix O, "Allocations." For How to Use 5700 and 5800

5900 Other Sources. Proceeds from other sources not classified in any account listed above.

5990 Special Items. This account is used to classify special items in accordance with GASB. Included are transactions or events within the control of the school district administration that are either unusual in nature or infrequent in occurrence. For some districts, this may include the sale of certain general governmental capital assets; sale or lease of mineral rights, including oil and gas; sale of infrastructure assets; or significant forgiveness of debt by a financial institution. Special items may also include events that are not within the control of the district. In the governmental funds, these items should be separately captioned or disclosed.

5991 Extraordinary Items. This account is used to classify items in accordance with GASB and Accounting Principles Board (APB) Opinion No. 30. Included are transactions or events that are outside the control of school district administration and are both unusual in nature and infrequent in occurrence. For some districts, this may include insurance proceeds to cover significant costs related to a natural disaster caused by fire, flood, tornado, hurricane, or hail storm; insurance proceeds to cover costs related to an environmental disaster; or a large bequest to a small government by a private citizen.

BALANCE SHEET CODES

The Complete Federal Definitions for balance sheet codes can be found in Chapter Six here: <http://nces.ed.gov/pubsearch/>

Just as for revenue and expenditure accounts, districts must report all bold balance sheet accounts (that apply to your district) to the Colorado Department of Education (CDE).

Furthermore, districts are required to include revenue and expenditure accounts in their data pipeline files.

It is necessary to report all Balance Sheet accounts that apply to your district to CDE and full disclosure of a district's balance sheet accounts are required for auditing purposes.

Districts are advised to use the account structure that is defined in this section for Balance Sheet accounting to avert problems if required Balance Sheet reporting to CDE expands.

6000 - 6709 Reserved for Colorado Department of Education use only.

FUND EQUITY

Note: CDE will combine any and all bolded balance sheet accounts from 6700 through 6999 to calculate Ending Fund Balance on the Auditor's Electronic Financial Data Integrity Check Figures Report. To report fund equity amounts, districts/BOCES must use the detailed, bolded accounts noted below.

GASB Statement No. 54 – Fund Balance Reporting and Governmental Fund Type Definitions.

Effective for FY11-12 and after, the following balance sheet coding must be used:

6710 Non-spendable Fund Balance

The non-spendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example, inventories and prepaid amounts. It also includes the long-term amount of loans and notes receivable, as well as property acquired for resale. The corpus (or principal) of a permanent fund is an example of an amount that is legally or contractually required to be maintained intact.

Note: 6711-6717 are available for District use and will roll to **6710**.

6718-6719 are reserved for CDE use only.

6720 Restricted Fund Balance

Fund balance should be reported as restricted when constraints placed on the use of resources are either: (a) externally imposed by creditors (such as through debt covenants, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Note: 6727-6739 are reserved for CDE use only.
6740-6749 are available for District use and will roll to **6720**.

6750 Committed Fund Balance

Amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority should be reported as committed fund balance. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.

Note: 6751-6757 are available for District use and will roll to **6750**.

6758-6759 are reserved for CDE use only.

6760 Assigned Fund Balance

Amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed, should be reported as assigned fund balance.

Note: 6761-6767 are available for District use and will roll to **6760**.
6768-6769 are reserved for CDE use only.

6770 Unassigned Fund Balance

Unassigned fund balance is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. The General Fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance. If that occurs, amounts assigned to other purposes in that fund should be reduced to eliminate the deficit. If the remaining deficit eliminates all other assigned amounts in the fund, or if there are no amounts assigned to other purposes, the negative residual amount should be classified as unassigned fund balance. A negative residual amount should not be reported for restricted, committed, or assigned fund balances in any fund.

Note: 6771-6777 are available for District use and will roll to **6770**.
6778-6779 are reserved for CDE.

Note: Reporting Encumbrances

For governments that use encumbrance accounting, significant encumbrances should be disclosed in the notes to the financial statements by major funds and nonmajor funds in the aggregate in conjunction with required disclosures about other significant commitments. Encumbering amounts for specific purposes for which resources already have been restricted, committed, or assigned should not result in separate display of the encumbered amounts within those classifications. Encumbered amounts for specific purposes for which amounts have not been previously restricted, committed, or assigned should not be classified as unassigned but, rather, should be included within committed or assigned fund balance, as appropriate, based on the definitions and criteria.

FUND NET POSITION: Balance Sheet Accounts to be used only with Proprietary Funds

6790 Net Investment in Capital Assets used only with Proprietary Funds

6791 Restricted Net Position: used only with Proprietary Funds

6792 Unrestricted Net Position: used only with Proprietary Funds

Note: Balance sheet codes 6790-6792 can be used with Fund 11 when Charter School proprietary fund information is reported in Fund 11.

Note: Balance sheet codes 6793 through 6879, 6881-6999 are reserved for CDE use only.

JOB CLASSIFICATION

The job classification dimension enables school district to break down expenditures for salaries and employee benefits by the employee's job classification. This dimension is used at least three ways in school accounting: (1) to classify payroll costs for personnel purposes; (2) to segregate certified and non-certified salaries and benefits; and, (3) to accumulate payroll costs by bargaining unit for purposes of labor negotiations.

According to Section 22-44-105(4)(b)(III), C.R.S., "The financial and human resource reporting system shall provide standard definitions for employment positions such that full, accurate disclosure of administrative costs is made within the budgets and the financial statements of every school district." In order to meet this requirement, the job classification dimension is a required dimension and the codes are carefully defined to describe job duties and responsibilities. For coding purposes, the job *description* rather than the job *title* must be the primary determinant. The appropriate code is not always obvious. For instance, a supervisor of computer programmers who spends most of his/her time developing programming code would be coded 381 System Development (or 300 Professional - Other if reporting at the bold). However, a supervisor of computer programmers who spends most of his/her time directing department staff and managing the department would be coded 103 Non-Instructional Manager/Director/Supervisor (or 100 Administrator if reporting at the bold).

Currently, the required reporting level of detail for this dimension for Finance December Data Pipeline is minimal (100 Administrator; 200 Professional - Instructional; 300 Professional - Other; 400 Paraprofessional; 500 Office/Administrative Support; and, 600 Crafts, Trades, and Services). However, a much greater level of detail is available (may be reported on other data pipeline collections) to meet local needs by using the codes as defined in this section. Districts are advised against adding codes beyond what is defined in this section since adding codes could create future problems if the required reporting level is expanded.

The job classification dimension applies only to expenditure accounts with object codes 0100 through 0299. The job classification dimension is not applicable for: expenditure accounts with object codes 0300 to 0999; revenue accounts; or, balance sheet accounts. Therefore, in such records, this dimension is available for district use and may be used to track whatever other detail is desired. In such records, it is not necessary to avoid the unique job classification codes as long as data queries can be set up to identify by both object code range and job classification code.

The following job classifications are not necessarily listed in order of level of responsibility.

100 Administrator.

An administrator is an individual who performs managerial activities, and is responsible for developing or interpreting policies or regulations and executing those policies or regulations through the direction of individuals at all levels, and may supervise other employees. Administrators on Special Assignment *must* be reported within the 100 series.

In order to be classified as an administrator, an individual *must* meet the following three criteria:

1. Manage an agency, school, department, or division/program
2. Responsible for developing agency, school, department, or division/program policy or regulations and/or responsible for board policy
 - a. interpret
 - b. implement
 - c. recommend
3. Meets Fair Labor Standards Act (FLSA) criteria for any of the following:
 - a. executive exempt employee
 - b. administrative exempt employee
 - c. professional exempt employee.

The individual also may meet the following criteria, but they are *not required* for classification as an administrator:

4. Develop/manage department budget
5. Supervision of more than 2 employees
 - a. ability to hire and fire
 - b. evaluation of employees.

101 Superintendent. Serves as the chief executive officer and primary advisor to the board of education. Responsibilities include overseeing the development of an educational program and all other activities which impact on that program.

102 Assistant/Deputy/Associate Superintendent, Senior Executive, Executive Director. GRANT/PROJECT

This dimension is intended to provide a means of segregating financial data associated with specific grants and categorical funding projects. A GRANT is an award of financial assistance in the form of cash or a contribution or gift of other assets from another government to an eligible grantee to be used for a specified or designated purpose, activity, or facility. Categorical funding is financial assistance to help offset costs of providing services related to specific PROJECTS such as Vocational Education, Exceptional Children's Educational Act (which includes special education, and gifted and talented education), and English Language Proficiency Act.

The designated grants/projects dimension serves a dual purpose: verifying that special grant and project revenues which are provided for specified or designated purposes are expended for those purposes; and, identifying total project expenditures--regardless of, and in excess of, special revenue. Project expenditures in excess of categorical revenues are assumed to be subsidies.

When Grant/Project Codes Must Be Used

The designated grants/projects code must be used when recording the following:

- ALL federal **revenues and expenditures, and required Balance Sheet records** in all funds except Food Service Fund.
- ALL federal and local reimbursable **revenues and required Balance Sheet records** in the Food Service Fund. Grant/project codes do NOT need to be used with expenditures in the Food Service Fund.
- **State revenues** with a CATEGORICAL FUNDING SOURCE CODE except transportation and small attendance center and ALL **expenditures** related to those PROJECTS--in the General Fund and in any other fund.

Note: Categorical project expenditures are usually not identifiable from another account code dimension, including the program code. Thus, the grant/project code must be used for these expenditures so they can be identified. For example, special education costs at an elementary school may be coded to program 0010, 0060, or 0100-2099, but must be coded to grant/project code 3130. Therefore, these special education costs can be identified from the grant/project code.

- Grant revenues received from local sources.

Dimension Limitations

The Designated Grant/Project dimension is designed to provide a method of reporting specific grant/project information to CDE. **The grant dimension is not intended to track comprehensive data regarding the grant**, such as fiscal year, mini-grants, subgrants, carryovers, or other budget control categories that may be needed by the individual district. **Each district should develop its account code structure to include optional elements, as needed, for its own tracking requirements.** These elements could include Fiscal Year, Special Cost Center, Subprogram, Project, etc.

How Grant/Project Codes Are Assigned

The grant/project code is a four-digit code. The first digit identifies the revenue source of the grant or project as local, intermediate, state, or federal. The second, third, and fourth digits are defined by the district for local and intermediate grants, and by the Colorado Department of Education (CDE) for state and federal grants. See detail below.

Source	First digit	Second, third, and fourth digits
Local, Intermediate	0, 1, 2	assigned by the district for local use
State	3	assigned by CDE; see State Grants section
Federal - formula-driven	4	assigned by CDE*
Federal - competitive	5	assigned by CDE & district*
Federal - competitive	6, 7, 8, 9.....	assigned by CDE*

* **See Federal Grants section:** the second, third, and fourth digits of the grant/project code must be the last three digits of the CFDA number. For more details, see the “Federal Grants” subheading which appears on the next page.

Grant Codes by Source

Local and Intermediate Grants

Local and intermediate grant/project codes are those numbered from 0001 to 2999. The local district assigns these numbers. Districts/BOCES choosing to use local and intermediate grant/project codes for non-grant/project tracking purposes must remove any such codes from data reported to CDE.

For All State and Federal Grants in Spreadsheet Form please go to:
<http://www.cde.state.co.us/cdefinance/sfCOA.htm>

Grant/project codes 3950 through 3999 are still available for District use for state grants and projects distributed through agencies other than CDE.

Call CDE, Division of Public School Finance, at (303/866-6843) for federal grant numbers which are not listed: new grants you may receive that are not currently listed.

CDE uses the following guidelines for assigning grant/project codes *unless a reporting need requires deviation* from the scheme.

1. Federal grant programs are typically identified by program numbers which are listed in the Catalog of Federal Domestic Assistance (CFDA). These “CFDA numbers” are five digits - the first two digits identify the administering agency and the remaining three digits identify the specific grant program. For purposes of the grants/projects code, the use of the last three digits of the CFDA number to identify the specific federal grant program is maintained.
2. Codes beginning with the digit “4” are formula-based.
3. Codes beginning with digits “5” through “9” are competitive.
4. Grants originating from the United States Department of Education (Agency 84) are assigned first numbers of “4,” “5,” or “6.”
5. When competitive grants have the same CFDA number as formula-based grants, they are often referred to as *discretionary grants* or as *mini-grants*. Districts often have multiple mini-grants with a single CFDA number. To give CDE and districts some ability to distinguish between mini-grants, two competitive grant/project codes are available for grants originating from the United States Department of Education (Agency 84).
6. Grants originating from federal governmental agencies other than the federal Department of Education are assigned first numbers of “7” or “8”.
7. Grants with no CFDA number regardless of department are assigned a first number of “9”.
8. The Complete Listings of State and Federal Grants are in Excel Spreadsheets. These can be downloaded and printed at the CDE website under School Finance, “State and Federal Grants”. <http://www.cde.state.co.us/cdefinance/sfCOA.htm>
9. **Grant Set-Aside Tracking:** Grant Codes 9100-9199 are used for Local and State Grant Set-Aside. That is to say that the local and state sources being used to support the federal grant set-aside requirement. Grant Codes 9200-9299 are used for Federal Grant Set-Aside. **Please refer to Appendix F3 for detailed information on Grant Set-Aside tracking.**

FISCAL YEAR

The fiscal year is a twelve-month accounting period (July 1 and ends on June 30).

Though this element is optional, many federal programs require separate reporting for current and prior-year grant money. The district would be well-served to implement a technique for tracking fiscal year revenue and expenditures.

The following codes and descriptors are designated for use by the school district that opts to use this element in its account code:

<i>Code</i>	<i>Descriptor</i>
0	2009 - 2010
1	2010 - 2011
2	2011 - 2012
3	2012 - 2013
4	2013 - 2014
5	2014 - 2015
6	2015 - 2016
7	2016 - 2017
8	2017 - 2018
9	2018 - 2019

INSTRUCTIONAL ORGANIZATION

The instructional organization is the general type of school or other organizational entity providing instruction.

The following codes and descriptors are designated for use by the school district which opts to use this element in its account code:

<i>Code</i>	<i>Descriptor</i>
1	Fall Term - Day

4	Winter Term - Evening
5	Spring Term - Day
6	Spring Term - Evening

SPECIAL COST CENTER

It is recognized that school districts classify expenditures in many other ways. Codes may be added to the expenditure account designator at the discretion of the school district. A special cost center will be the smallest segment of a program that is separately recognized in the school district's records, accounts, and reports.

No codes and descriptors are designated for use by the school district which opts to use this element in its account code. The codes and descriptors should be developed by the district to meet its own needs.

LEVEL OF INSTRUCTION

This dimension permits districts to track activities by area of instruction such as preschool, elementary, secondary, or post-secondary. In the following dimensions, grade span can be changed to age span when structuring a nongraded school.

10 Elementary

A school organization classified by state and local practice and composed of any span of grades from preprimary through eighth grade.

11 *Pre-Kindergarten.* A school organization composed entirely of any span of ages below kindergarten. This category is normally used for students identified as needing special services.

- 12 *Kindergarten.* A school organization for children for the year immediately preceding the first grade.
- 13 *Other Elementary.* A school organization composed of any span of grades not above grade eight except pre-kindergarten and kindergarten.
- 20 Middle/Junior High School
- A school organization composed of two or three grades beginning with the next grade following an elementary school. Most middle/junior high school organizations presume a high school will follow the middle/junior high school.
- 21 *Regular Middle/Junior High School.* A school organization which offers a “regular” series of instructional courses and activities.
- 22 *Alternative Middle/Junior High School.* A school organization which offers an “alternative” series of instructional courses and activities.
- 30 High School
- A school organization comprising any span of grades beginning with the next grade following a middle/junior high school and ending with grade 12.
- 31 *Senior High - Regular.* A school organization offering the final years of “regular” high school work necessary for graduation.
- 32 *Senior High - Alternative.* A school organization offering the final years of “alternative” high school work necessary for graduation.
- 39 *Other Senior High.* A school organization which varies from the regular and alternative structures identified above.
- 40 Post-Secondary. A school organization for adults and out-of-school youth (16 years of age or older who are not regularly enrolled in school) who have either completed, interrupted or have not begun their formal education, or for students attending an institution of higher education.
- 41 *Adult/Continuing.* A school organization for adults and out-of-school youth (16 years of age or older who are not regularly enrolled in school) who have either completed, interrupted, or have not begun their formal education and are pursuing skills or knowledge in other than regularly prescribed courses. These include adult basic schools, advanced adult schools, occupational schools, and those schools which have as their purpose the upgrading of occupational skills, retraining existing skills, pursuit of special interests, or for enrichment.

-
- 42 *Community/Junior College.* An institution of higher education that usually offers the first two years of college instruction and frequently grants an associate degree, but does not grant a bachelor's degree. It is either an independently organized institution (public or nonpublic), an institution which is part of a school district, or an independently organized system of junior colleges. Junior colleges offer college transfer courses and programs; vocational, technical, and semiprofessional occupational programs; or general education programs.
- 00 District-Wide. Assigned to any expenditure transaction that applies to the entire school district and not clearly assignable to an instructional level.

SECTION 22-44-105(4), C.R.S.**APPENDIX B**

This is the legislation which called for the creation of a statewide chart of accounts for electronic submission to the department.

22-44-105(4)

- (a) Not later than July 1, 1998, the state board of education, with input from the financial policies and procedures advisory committee, shall establish and implement a statewide financial, student management, and human resource electronic data communications and reporting system that is based on a redesigned standard chart of accounts, a standard information system, and a standard personnel classification system. The department of education and all school districts and boards of cooperative services in the state shall use the system to report and obtain necessary financial information.
- (b) In redesigning the financial and human resource reporting system pursuant to paragraph (a) of this section, the state board of education shall adhere to, but is not limited to, the following guidelines:
 - (I) The financial and human resource reporting system shall be based on a redesigned chart of accounts that will make school-to-school and school district-to-school district comparisons more accurate and meaningful;
 - (II) The financial and human resource reporting system shall provide standard definitions for employment positions such that full, accurate disclosure of administrative costs is made within the budgets and the financial statements of every school district;
 - (III) The financial reporting system shall make it possible to collect comparable data by program and school site.
- (c) Nothing in this section shall be interpreted to require accounting of salary and benefit costs by school site.
- (d) The financial, student management and human resources reporting system shall be available on a pilot basis by July 1, 1996, and shall be completely implemented by July 1, 1997. The electronic data communications reporting system shall be available on a pilot basis by July 1, 1997, and shall be completely implemented by July 1, 1998.

Quoted from *Colorado School Laws 1996*.

PUPIL ACTIVITY

APPENDIX C

The level of reporting detail which is required for pupil activity expenditures depends upon the type of fund used for the reporting. The choice of which fund type is appropriate is determined by Generally Accepted Accounting Principles (GAAP).

When student organizations are reported in a special revenue fund, *Fund 23 Pupil Activity Special Revenue Fund*, expenditures must be recorded at the level of detail identified by bold print in the account code definitions throughout this document.

When student organizations are reported in an agency fund, *Fund 74 Pupil Activity Agency Fund*, expenditures may be reported using a single program-object combination. However, if internal charge/reimbursement accounts are used, detail must include the specific internal charge/reimbursement account object code. Appropriate location codes must be used.

Example of the Levels of Required Recording Detail for Pupil Activity Expenditures

Assume that you’ve assigned 1901 for Yearbook and 1905 for Chess Club.

BOARDS OF COOPERATIVE EDUCATIONAL SERVICES (BOCES)**APPENDIX D**

The recording of transactions BY BOCES AND SCHOOL DISTRICTS must allow for the identification of revenues and expenditures that would be double counted if all Colorado school district and BOCES financial data were aggregated.

To accomplish the identification of inter-BOCES/district transactions, object and source codes have been defined and bolded (required) for recording transactions which result in the movement of funds between BOCES and school districts, school districts and BOCES, school districts and school districts, and BOCES and BOCES.

These object and source codes identify specific transactions as transportation, tuition, and [other] services. Also, these codes distinguish between transactions among member BOCES and districts and among non-member BOCES and districts. Thus, for example, if a BOCES has a special education program that serves students from five area school districts, any inter-BOCES/district transactions relating to that special education program are recorded using codes listed below as “Transactions between MEMBER BOCES and districts.” This could include transactions between school districts as long as the districts are members of the BOCES and the purpose for the transactions is BOCES-related.

However, transactions which are between non-member districts or are not related to the BOCES’ purpose are recorded using the codes listed as “Transactions between non-member BOCES and districts.” For example, two neighboring districts jointly own and operate an athletic stadium. Transactions which result in the inter-district movement of funds for the purpose of operating the stadium would be recorded using codes for “Transactions between non-member BOCES and districts.” This is true even if both districts are members of the special education BOCES (example mentioned in the above paragraph) since athletic stadium operations are not related to the BOCES special education program.

An Administrative Unit (AU) is a school district, board of cooperative services, or a combination of school districts or boards of cooperative services, which is approved by CDE and normally provides educational services to exceptional children. AU’s function similarly to BOCES. Thus, financial transactions between AU members and non-members are recorded using the same account codes and logic as financial transactions between BOCES members and non-members.

Example of How to Record an Inter-BOCES/district Transaction

Scenario: A BOCES has a special education program for students in grades 1 through 3. The program includes students from five area school districts. The BOCES also provides a psychologist and a special education director for several member districts. *The BOCES bills a member district for specific services provided; and, the district pays the bill.*

*Note: Location and program coding is not required for revenues, however, the BOCES may find it useful to use these elements to identify revenues.

APPENDIX D

Expenditures incurred directly from providing services are recorded by the BOCES using codes that are defined without regard to BOCES/district relationships, as shown below. However, the BOCES may choose to use location codes specific to member districts to identify costs provided for the benefit of specific districts. See “How Location Codes Can Be Used,” on the following page.

(Example - continued)

HOW LOCATION CODES CAN BE USED BY THE BOCES

CDE will use location codes numbered 100 through 599 in conjunction with instructional program codes to identify instructional costs by level (i.e., as elementary, middle/junior high school, or high school). Therefore, BOCES **MUST use the structure for location codes that is defined in the chart of accounts.** For example, elementary instructional costs must be coded with a location code that follows the syntax 1YY, middle school instructional costs must be coded with a location code that follows the syntax 2YY, etc.

APPENDIX D

ONE METHOD for BOCES to track transactions *by district being served* is to define location codes such that *each district has its own two-digit code*. Then these two-digit district codes may be combined with the appropriate first digit to create a location code that follows the structure from the chart of accounts.

Example of Location Codes Used by a BOCES

Scenario: A BOCES provides services to five member districts for all instructional levels.

District	District Code	Location Codes			
		Elementary	Middle	High	Combination
Hayden	01	101	201	301	501
Poudre	10	110	210	310	510
Fort Morgan	20	120	220	320	520
Canon City	30	130	230	330	530
Trinidad	40	140	240	340	540

If the BOCES also must identify *locations where instructional services are provided*, additional codes may be defined (if there are enough numbers) **or an optional element may need to be added to the account-code string**. An example of defining additional codes is shown below.

	Elementary Location Code	Elementary Service Center 1	Elementary Service Center 2	Elementary Service Center 3
Poudre	110	111	112	113
Del Norte	150	151	152	153

An expenditure for services provided at Elementary Service Center 1 for students from Poudre would be coded with location code 111.

SUB-GRANTING NOT ALLOWED

The Department (CDE) does not allow the entity that CDE provides with the Federal funding (the BOCES or lead District of a consortium) to subgrant the Federal funding to another entity. In the cases where the District involves another entity (the member Districts), the Financial Policy and Procedures (FPP) committee established the flow-thru coding concept. As an example, see Object Code 0591 and Source Codes 4951, 3951 and 1951. This flow-thru coding (not to be confused with the Federal grant pass through funding concept or sub-granting) was established to allow the other entity to report the activities they performed on behalf of the BOCES. It is therefore up to the BOCES to meet, with member District assistance, the compliance requirements related to Federal funding provided to the BOCES.

APPENDIX E

Object codes 0850 through 0869 allow for the charging of an internal service such as field trips to the locations and programs which benefit from the service.

This method abates expenditures rather than recognizes revenue in the program providing the service; thus, use of internal charge reimbursement accounts avoids the overstatement of revenues and expenditures. Internal charge reimbursement objects net to zero district-wide. Exception: At the district’s discretion, the credit entry for Overhead Costs and Indirect Costs may be recorded with sources 1971 and 1972, respectively, rather than objects 0868 and 0869, respectively. *See Appendix G, Indirect Costs.* When revenues are recognized (source codes are used) instead of expenditures abated (object codes are used with negative amounts), internal charge reimbursement objects will not net to zero district-wide, but will equal the total reported as the source code amounts.

These codes are not used for user fees (charge backs) in an internal service fund; rather, internal service fund user fees (charge backs) are coded to sources 1973 through 1979. *See Appendix P, “Internal Service Funds.”*

INTERFUND TRANSFERS

APPENDIX F

The amounts debited and credited to 5200 must net to zero.

Example of How to Record an Interfund Transfer

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount	Description
10	XXX	00	0000	5222	000	0000	-100,000.00	Transfer out of General Fund (Debit)
22	000	00	0000	<u>5210</u>	000	0000	100,000.00	Transfer into Designated- Purpose Grants Fund (Credit)

INTERGRANT TRANSFERS

APPENDIX F-2

Effective FY 03-04, these types of transfers between allowable grants go into effect.

An Intergrant Transfer is when you transfer revenue from one grant to another, and spend those moneys accordingly. Example: you can transfer Title II Part A "Teacher Quality" grant revenue (grant 4367) over to Title I (grant 4010), and spend the transferred Teacher Quality money as Title I money. You cannot do this with all grants (there is a list of allowable grants at the bottom of this appendix).

Here is an example of transferring \$3,000.00 of Teacher Quality grant revenue over to Title I.

The initial coding for Teacher Quality grant revenue received does not change, and let's say you receive \$6,000.00:

Fund	Location	SRE	Program	Object/Source	Job	Grant	Amount
Credit Revenue, and Debit Cash							
22	000	00	0000	4000	000	4367	\$6,000.00
You decide to transfer \$3,000.00 of your Teacher Quality grant revenue over to Title I							
Debit: Transfer out of Teacher Quality. Credit: Cash							
22	600	00	0000	5322	000	4367	\$- 3,000.00
Credit: The transfer into Title I. Debit: Cash							
22	000	00	0000	5322	000	4010	\$3,000.00

Here is a list of grants that have "transfer capability", and a list of grants that can be transferred into:

Under NCLB LEAs/BOCES can transfer from the formula portion of:

- Grant 4367: Title IIA, Teacher Quality
- Grant 4318: Title IID, Technology
- Grant 4186: Title IVA, Safe & Drug Free
- Grant 4298: Tile V, Innovative Ed

Transfer to:

- Grant 4010: Title I, Part A
- Grant 4367: Title IIA, Teacher Quality
- Grant 4318: Title IID, Technology
- Grant 4186: Title IVA, Safe & Drug Free
- Grant 4298: Title V, Innovative Ed

IMPORTANT:

- Non-Improvement districts can transfer up to 50% of eligible program funds**
- Improvement districts can transfer up to 30% of eligible program funds**
- Corrective Action districts cannot transfer funds**

Note: REAP districts may elect to alternatively use up to 100% of eligible program funds to meet the needs of a different program. This alternative usage is NOT an actual transfer of resources from one program to another and the funding remains in the original program.

INTERGRANT TRANSFERS (continued)**APPENDIX F-2****CLARIFICATIONS ON INTERGRANT TRANSFERS:**

Do not get confused with the word "transfers" as it relates to Intergrant Transfers. Under school wide programs, districts are allowed to reflect one amount per grant on the NCLB budget to meet the requirements of the NCLB budget process. However, the district continues to be required to account for and report this school wide program under CDE's chart of accounts with the appropriate grant coding. Because this program is not a true transfer of funding between grant programs, the transfer coding would not apply in this case.

The Intergrant transfer coding applies to districts that are actually moving funds from the original grant source to a different receiving grant source. Based on the expenditures in the receiving grant, Grants Fiscal Management at CDE will fund the requested transfer portion from the original grant program. The district accounts for the funding in the original grant and using the transfer coding moves the funding from the original grant to the receiving grant.

If your district elected to transfer funds between grants and your district also has school wide programs, you will need to account for the transfer of funding between the grants as provided in this appendix (Appendix F-2). The district will also need to account (under CDE's chart of accounts with the appropriate grant coding) in the grant that provided the expenditures for the school wide program activities.

INTERGRANT TRANSFERS: GRANT SET-ASIDE

APPENDIX F-3

Effective FY13-14, Grant Set-Aside tracking is mandatory for Districts and BOCES that receive Title I Part A Funds (Grant 4010), and is based on the Set-Asides identified in their NCLB Consolidated Budget. The Grant Set-Aside will also use the intergrant transfer coding concept.

Here is an example of transferring \$3,000.00 of Title I Part A to the Priority Performance Challenge Set-Aside.

The initial coding for receiving \$30,000 of Title I Part A grant revenue does not change:

Fund	Location	SRE	Program	Object/Source	Job	Grant	Amount
------	----------	-----	---------	---------------	-----	-------	--------

Credit Revenue, and Debit Cash

22	000	00	0000	4000	000	4010	\$30,000.00
----	-----	----	------	------	-----	------	-------------

In the District’s NCLB Consolidated Budget, the District identified \$3,000 needed to meet the Priority Performance Challenge Set-Aside (Grant 9208).

Debit: Transfer out of Teacher Quality. Credit:

22	600	00	0000	5322	000	4010	\$- 3,000.00
----	-----	----	------	------	-----	------	---------------------

Credit: The transfer into Title I. Debit:

22	000	00	0000	5322	000	9208	\$3,000.00
----	-----	----	------	------	-----	------	------------

Normal expenditure coding is used to track the usage of this \$3,000 Set-Aside with Grant 9208 used in all applicable expenditure accounts.

This treatment is applicable to the following Grant Set-Aside Codes:

Federal Grant Set-Aside Codes:

- 9201 Preschool Set-Aside
- 9202 Eligible Homeless Children Set-Aside
- 9203 Family Literacy Set-Aside
- 9204 Neglected Institutions Set-Aside
- 9205 Non-Public School Set-Aside
- 9206 District Managed Activity Set-Aside
- 9207 Highly Qualified Set-Aside
- 9208 Priority Performance Challenge Set-Aside

APPENDIX F-3**State and/or Local Grant Set-Aside**

If the District is using State and/or Local funds to assist with meeting Grant Set-Aside requirements (as identified in the NCLB Consolidated Budget), the following Grant Codes are used, and NO transfers of Federal Funds are made. You will code Set-Aside expenditures met by State and/or Local revenue, to the following Grant Codes (No revenue are tied to these Grant Codes):

- 9101 Preschool Set-Aside
- 9102 Eligible Homeless Children Set-Aside
- 9103 Family Literacy Set-Aside
- 9104 Neglected Institutions Set-Aside
- 9105 Non-Public School Set-Aside
- 9106 District Managed Activity Set-Aside
- 9107 Highly Qualified Set-Aside
- 9108 Priority Performance Challenge Set-Aside
- 9109 Choice Set-Aside
- 9110 Supplemental Education Services Set-Aside
- 9111 Parental Activities School Set-Aside
- 9112 Parental Activities District Set-Aside
- 9113-9199 CDE Future Use*

Complete definitions of Grant Set-Aside Codes:**9201 Preschool Set Aside**

Title I, Part A funds may be used for preschool services for at-risk children within Title I-funded school and school districts, at the distinction of the school or school district. Services include, but are not limited to direct intervention, supplemental intervention materials and professional development opportunities for preschool teachers.

9202 Eligible Homeless Children Set Aside

All public schools and districts receiving federal funds must reserve funds to provide services to children and youth who are experiencing homelessness. To assist with these services, the law requires that school districts set aside Title I funds, as necessary, to provide services comparable to those that are provided to children in Title I, Part A funded schools. These funds can also support educationally related services to children in shelters and other locations where homeless children may live. The services provided with these funds should support homeless students to succeed in school and to meet the academic achievement standards.

9203 Family Literacy Set Aside

Local Educational Agencies may set aside funds to support family literacy activities for eligible Title I children, including early childhood education, interactive literacy activities between parents and their children, and training for parents regarding how to be the primary teacher for their children and full partners in the education of their children.

9204 Neglected Institutions Set Aside

A Local Educational Agencies must reserve such funds as are necessary under this subpart to provide services comparable to those provided to children in schools funded under this part to serve: children in local institutions for neglected children and if appropriate, children in local institutions for delinquent children, and neglected or delinquent children in community day school programs. These funds are automatically generated within the regular district allocation.

APPENDIX F-3**9205 Non-Public School Set Aside**

Districts must provide Title I, Part A services for eligible children attending private schools, their teachers, and their families that are comparable to those provided to eligible public school children, their teachers, and their families. The Title I, Part A services for private school students must be developed through timely and meaningful consultation with officials of the private schools. The public school district may provide these services directly or through contracts with public and private agencies, organizations, and institutions. The cost of administering the private school program services is separate and is not to be included to satisfy the equitable expenditures calculation.

9206 District Managed Activity Set Aside

Local Educational Agencies may reserve funds for district level activities designed to improve student outcomes at Title IA schools. Allowable activities include, additional support for schools with a Priority Improvement or Turnaround Plan Type Assignment; extended learning opportunities (summer school or extended day), parental activities beyond district level parental activities set aside; pay differential

9207 Highly Qualified Set Aside

If a Local Educational Agencies has teachers who are not highly qualified, the HQ Local Educational Agencies may set aside a maximum of 10% of its Title I, Part A, allocation to assist these teachers in meeting the HQ requirements.

9208 Priority Performance Challenge Set Aside

Districts with a Priority Improvement or Turnaround Plan Type Assignment must reserve not less than 10% of its Title I Part A funds for high-quality professional development for instructional staff that is specifically designed to address the areas the district and/or its schools did not meet state performance expectations.

9209 Choice Set Aside

In the case of a school identified for school improvement (Priority Improvement or Turnaround Plan Type Assignment), the local educational agency shall provide all students enrolled in the school with the option to transfer to another public school served by the local educational agency, which may include a public charter school. District must provide or pay for the cost of transportation for participating students. In conjunction with the Supplemental Education Services Set aside, LEA must reserve 15% of its Title I, Part A allocation to provide these services.

9210 Supplemental Education Services

Supplemental educational services (SES) are additional academic instruction designed to increase the academic achievement of students in schools school identified for improvement (Priority Improvement or Turnaround Plan Type Assignment). In conjunction with the Choice Set Aside, LEA must reserve 15% of its Title I, Part A allocation to provide these services. These services, which are in addition to instruction provided during the school day, may include academic assistance such as tutoring, remediation and other supplemental academic enrichment services that are consistent with the content and instruction used by the local educational agency and are aligned with the State's academic content and achievement standards. SES must be high quality, research-based, and specifically designed to increase student academic achievement.

APPENDIX F-3**9211 Parental Activities School Level Set Aside**

Local Educational Agencies receiving Title I, Part A allocations of \$500,000 or greater must set aside a minimum of 1% of those funds to support parent involvement activities, and 95% of these funds must be sub-allocated to the school level. The primary objective of this set-aside is to enable greater and more meaningful parent participation in the education of their children.

9212 Parental Activities District Level Set Aside

Local Educational Agencies receiving Title I, Part A allocations of \$500,000 or greater must set aside a minimum of 1% of those funds to support parent involvement activities, and 95% of these funds must be sub-allocated to the school level. The remaining 5% of this set aside may be managed at the district level. The primary objective of this set-aside is to enable greater and more meaningful parent participation in the education of their children.

INDIRECT COSTS

APPENDIX G

A district has two options for recording indirect costs:

1. The Expenditure/Revenue method, or
2. The Abatement Method.

Examples of each method are shown below.

As with Indirect Costs, the district may choose to account for Overhead Costs using either the Revenue/Expenditure Method or the Abatement Method, except the object will be 0868 instead of 0869 and the source will be 1971 instead of 1972.

- Use object code 0868 with non-federal grant/project codes
- Use object code 0869 is with federal grant/project codes

OPTION 1. The Expenditure/Revenue Method.

Assume indirect costs are being charged to the Title I program.

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount	Description
22	XXX	00	XXXX	<u>0869</u>	000	4010	500.00	Expenditure in the Designated-Purpose Grants Fund
10	000	00	0000	<u>1972</u>	000	0000	500.00	Revenue in the General Fund

OPTION 2. The Abatement Method.

Assume indirect costs are being charged to the Title I program.

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount	Description
22	XXX	00	XXXX	<u>0869</u>	000	4010	500.00	Expenditure in the Designated-Purpose Grants Fund
10	XXX	00	XXXX	<u>0869</u>	000	0000	-500.00	Abatement in the General Fund

Note: With the Abatement Method, the district’s internal charge/reimbursement accounts net to zero; however, with the Revenue/Expenditure Method, the district’s internal charge/reimbursement accounts do not net to zero, but the total expenditures (0868/0869) should equal the total revenues (1971/1972).

Cocurricular Activities

Cocurricular activities are school-sponsored activities or experiences, under the guidance or supervision of qualified adults, designed to provide opportunities for pupils to participate in such experiences on an individual basis, in small groups, or in large groups - at school events, public events or a combination of these - for such purposes as motivation, enjoyment and improvement of skills. Student organizations are included and must be coded to instructional programs 1800 to 2099.

1900 Cocurricular Activities- Nonathletic**2000 Cocurricular Activities - Nonathletic**

Note: Instructional program codes 1900 through 2099 are available to districts/BOCES for non-athletic cocurricular pupil activities and organizations.

REVENUE vs. ABATEMENT**APPENDIX J**Fees

As a general rule, revenues from fees should be recorded in the appropriate revenue account and should not be entered as an off-set or “netting” of an expenditure. This includes fees collected for participation in activities or instructional courses, parking fees, athletics fees, and any fee collected for the subsequent purchase of instructional supplies and materials. In situations where the district is merely acting as a purchasing agent on the student’s behalf, (e.g., a woodshop class provides wood for students strictly on a cost basis), it may be appropriate to net funds collected against the supply expenditure.

Internal Services (except for those recorded in Internal Service Funds)

When a district opts to charge back internal services that are provided by a cost center reported outside of an Internal Service Fund, the following object codes are used:

- 0851 Transportation/Field Trips
- 0852 Maintenance
- 0853 Technology/MIS
- 0854 Printing/Duplicating.

The program receiving the service will report a cost using the appropriately described object code above. The program providing the service will report a negative expenditure using the same object. *See Appendix E, Internal Charge Reimbursement Accounts.*

Object codes in the 0860 series, like the 0850 series, are used to charge back internal services to those programs which benefit from the services. These codes include:

- 0868 Overhead Costs
- 0869 Indirect Costs.

Like with 0850 series codes, the district may record a negative expenditure in the program providing the service. However, unlike 0850 series codes, the district alternatively may record revenue using source 1971 Overhead Cost Revenue or source 1972 Indirect Cost Revenue. *See Appendix G, Indirect Costs.*

Internal Service Fund Revenue

User fees (charge backs) received into the Internal Service Fund from other funds MUST BE recognized as revenue. The following source codes are predefined for this purpose:

- 1973 Internal Service Revenue - Employee Benefit Premiums
- 1974 Internal Service Revenue - Risk Management
- 1975 Internal Service Revenue - Print Shop
- 1976 Internal Service Revenue - Technology Services
- 1977 Internal Service Revenue - Warehouse Services
- 1978 Internal Service Revenue - Other
- 1979 Internal Service Revenue – Contra Account

See Appendix P, Internal Service Funds. Amounts which represent duplicated revenues and duplicated expenditures will be identified and/or eliminated by CDE as appropriate to avoid misrepresentation when data is consolidated for reports.

Insurance Claims

Districts may recognize insurance claims as abatements against expenditures by crediting appropriate object codes; or, alternatively, districts may recognize insurance claims as revenues by using source 1985. Because of numerous scenarios under which insurance claims result, it is recommended that district staff consult with their auditor about proper accounting treatment, especially when amounts are material.

APPENDIX K

Financial reporting for charter schools may vary depending upon the terms and conditions of the charter contract, legal and auditor interpretations of statutes and generally accepted accounting principals, and other factors.

Certain legal and organizational structures for charter schools (such as foundations, business enterprises, etc.) may result in a charter school being considered an entity apart from, although connected to, the school district. When this happens, financial transactions of the charter school are usually not included in the school district's financial transaction database for normal day to day operations. However, districts are required to include charter school revenues and expenditures in the Data Pipeline submission file.

The chart of accounts provides certain requirements for reporting charter school revenues and expenditures to CDE. These requirements are necessary so charter school data is identifiable. In the event that a district's financial statements illustrate charter school activity as a discreetly presented component unit, CDE will use the required charter school location codes to reconcile the financial statements with the Finance December Data Pipeline generated Auditor's Electronic Financial Data Integrity Check Figures Report.

The following elements have been defined within the chart of accounts for reporting charter school transactions which are included in the district's financial database:

FUND

Fund 11, Charter School Fund. Fund 11 is available, and is required, for charter school transactions that are accounted for in the district's General Fund and used to identify the charter school's General Fund. Fund 11 is considered part of the General Fund; but, a different fund number is used so charter school activities can be identified. Since Fund 11 is part of Fund 10, Fund 11 will be consolidated with Fund 10 data whenever appropriate. This consolidation will include eliminating "interfund" transfers, indirect or overhead costs, etc.

If the charter school receives grant funding, fund 22 is recommended for use in reporting revenue and expenditures relating to the grant.

The charter school may also report transactions in other funds, as applicable, such as the Pupil Activity Fund or Capital Reserve Fund.

LOCATIONS

Locations 900 through 969. Location codes 900 through 969, which are reserved exclusively for charter schools, **are required** for recording charter school revenues and expenditures and balance sheet. Each charter school must have a unique location code that identifies the school and level. So that the level can be identified, the following structure must be used when assigning location codes.

Locations 900 through 919 are used for **elementary charter schools**.

Locations 920 through 929 are used for **middle school (jar high) charter schools**.

Locations 930 through 939 are used for **high school charter schools**.

Locations 940 through 949 are used for **vocational/technical charter schools**.

Locations 950 through 969 are used for **combination charter schools**.

These charter school location codes must be used for all charter school transactions regardless of fund.

APPENDIX KSOURCE

Sources in the 1850 series are available as one way to track charter school revenue. Alternatively, other appropriate source codes may be used. Codes in this series which are defined include:

1851 District Services Provided to Charter Schools

Also, source codes 1852 through 1859 are available for district use.

SUB-GRANTING NOT ALLOWED

The Department (CDE) does not allow the entity that CDE provides with the Federal funding (the District) to subgrant the Federal funding to another entity. In the cases where the District involves another entity (the Charter School), the Financial Policy and Procedures (FPP) committee established the flow-thru coding concept; please see Object Code 0594 and Source Codes 4954, 3954 and 1954. This flow-thru coding (not to be confused with the Federal grant pass through funding concept or sub-granting) was established to allow the other entity to report the activities they performed on behalf of the District. It is therefore up to the District to meet, with charter school assistance, the compliance requirements related to Federal funding provided to the District.

CHARTER SCHOOL ALLOCATIONS

APPENDIX K-2

Allocations to your Charter Schools **MUST be recorded as described below** so that CDE can identify these transactions in your Data Pipeline submission file.

This recording requirement is not intended to dictate treatment of charter school allocations on the district financial statements. Proper treatment of charter school allocations on financial statements is the responsibility of the district, often with input from the independent auditor.

Example of How Charter School total **Per Pupil Revenue** Allocations must be recorded

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Debit	Credit
Rules: - The amounts debited and credited to 57XX must net to zero.								
Example:								
10	9XX	00	0000	<u>5711</u>	000	0000	3,000,000	
11	9XX	00	0000	<u>5710</u>	000	0000		3,000,000

Charter School Administrative Overhead Costs

A district with enrollment of more than 500 is allowed to withhold up to 5% for Central Administration, based on actual per pupil expenditures in Program 2300, Central Administrative Overhead, identified in the “Chart of Accounts”, plus Object Codes 0100 Salaries and 0200 Benefits for Job Code 100 in Programs 2500 and 2800.

A district with enrollment of 500 or less is allowed to withhold up to 15% for Central Administration, based on actual per pupil expenditures in Program 2300, Central Administrative Overhead, identified in the “Chart of Accounts”, plus Object Codes 0100 Salaries and 0200 Benefits for Job Code 100 in Programs 2500 and 2800.

Example of district/charter school accounting for PPR allocation with administrative overhead costs withheld:

District	Charter School	District
FTE	FTE	PPR
10,000	500	\$6,000

Charter PPR = \$6,000 PPR X 500 FTE = \$3,000,000

5% central administrative overhead costs maximum withholding amount = \$150,000

22-30.5-112(2)(a.4)(I). C.R.S.

Within ninety days after the end of each fiscal year (September 30th), each school district shall provide to each charter school in the district an itemized accounting of all its central administrative overhead costs.

CHARTER SCHOOLS

APPENDIX K-2

- ▶ House Bill 16-1422 added the following provision as well. If the itemized accounting includes services provided to the charter school by school district personnel, the itemized accounting, at the charter school’s request, must include a list of the personnel positions and services provided by persons in each position. However, this list of personnel and the services provided does not change the current calculation of central administrative overhead cost as defined by statute. See definition below.

Actual costs shall be the amount charged to the charter school. The district cannot charge the charter school the 5% (15% for districts with enrollment under 500) maximum withholding for central administrative overhead costs if they do not have actual expenditures to cover that amount.

District Actual Expenditures:

- ▶ Support Services – general administration Program 23xx (all Program Codes within the 2300 series, regardless if bolded or not)-All Objects = \$1,500,000
 District per-pupil costs: \$1,500,000/10,000 District FTE = \$150/pupil
 Charter Program per-pupil costs: \$150 X 500 Charter FTE = \$75,000

- ▶ Support Services – business and central Programs 25xx & 28xx (all Program Codes within the 2500 and 2800 series, regardless if bolded or not)-Objects 01xx & 02xx (all Object Codes within the 100 and 200 series, regardless if bolded or not)-Job Class 1xx (all Job Class Codes within the 100 series, regardless if bolded or not) = \$1,000,000
 District per-pupil costs: \$1,000,000/10,000 District FTE = \$100/pupil
 Charter Program per-pupil costs: \$100 X 500 Charter FTE = \$50,000

The district is allowed to withhold up to maximum of 5% (15% for districts with enrollment under 500). In this example the allowable withholding based on actual expenditures is \$125,000, which is less than the maximum of \$150,000. The net amount payable to the charter school is \$2,875,000

The total Per Pupil Revenue must be allocated by the district to the charter school. Administrative overhead costs withheld by the district from the charter school should be accounted for as follows:

School District

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Debit	Credit
*The district has the option of using the program code for this revenue account, i.e. 2300, 2500, 2800								
Example:

The charter school may contract for additional purchased services: i.e. accounting/payroll, transportation, food services, etc.; with the district. Accounting for these additional services (object code 0594) would be as follows:

Charter School

CHARTER SCHOOL INTERCEPT PAYMENTS

APPENDIX K-3

Charter schools that have issued bonds may enter into an agreement with the State Treasurer to make bond payments on their behalf by withholding the amount from their state public school funds.

22-30.5-406(1)(c)(I) In the case of a charter school authorized by a school district board of education, the state treasurer shall withhold the amount of any direct payments made on behalf of a charter school plus administrative costs associated with the making of direct payments in an amount agreed upon by the state treasurer and the charter school from the payments to the chartering district of the state share of the district's total program made pursuant to article 54 of this title. The state treasurer shall notify the chief financial officers of the chartering district and the charter school of any amount of moneys withheld and the chartering district shall reduce the amount of funding it provides to the charter school by said amount. Any administrative costs withheld by the state treasurer pursuant to this subparagraph (I) shall be credited to the charter school financing administrative cash fund, which fund is hereby created. Moneys in the fund shall be continuously appropriated to the state treasurer for the direct and indirect costs of the administration of this section. Moneys in the charter school financing administrative cash fund shall remain in the fund and shall not revert to the general fund at the end of any fiscal year.

The follow method should be used to account for the intercept portion of the charter school's state equalization payment.

CAPITAL LEASES

APPENDIX L

Generally, a lease arrangement subject to annual appropriation does not require voter approval under Taxpayer Bill of Rights (TABOR); but, the accounting for that lease is the same as any other capital lease. The basic steps are shown below.

1. Recognize the proceeds from the lease and the purchase of equipment at the time the district enters into the lease.
2. Monthly lease payments are recorded as interest expense and repayment of principal.

Example of How to Record Capital Leases

Scenario: A district enters into an arrangement to lease computers to equip a high school computer lab for a business program (non-vocational).

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount	Description
1. Initial Transaction								
10	000	00	0000	<u>5400</u>	000	0000	50000.00	Proceeds from capital lease.
10	3XX	00	0300	0734	000	0000	50000.00	Purchase of equipment under capital lease.
2. Monthly Lease Payment								
10	800	00	<u>5100</u>	<u>0833</u>	000	0000	1200.00	Interest expenditure.
10	800	00	<u>5100</u>	<u>0913</u>	000	0000	1000.00	Repayment of principal.
as defined by district							2200.00	Cash in Bank

ROLLING OF THE BOLD**APPENDIX N**

The Chart of Accounts is designed to meet legal and regulatory requirements and generally accepted accounting principals while providing as much flexibility as possible for the local school district. For instance, code structure and definitions allow for varying degrees of detail depending upon local district reporting needs.

Codes which are necessary to meet legal and regulatory requirements and generally accepted accounting principals are **REQUIRED**. These required codes are shown in **BOLD PRINT** throughout this document. Also, these required codes are outlined in Appendix A, “Required Reporting Level.”

CDE will aggregate data upon receipt of electronic data files by “rolling” unbold code data into appropriate bold code data. An example follows which demonstrates how “rolling to the bold” works.

How Rolling to the Bold Works*Object Codes*

0700	Property.	
	0710	Land and Improvements.
	0720	Buildings.
	0721	Lease Holding Improvements.
	0722	New Construction
	0723	Major Renovation
	0730	Equipment.
		0731 Machinery.
	0732	Vehicles.
		0733 Furniture.
		0734 Technology Equipment.
	0735	Non-Capital Equipment.
		0739 Other Equipment.
	0740	Depreciation.
	0750	Loss on Disposal.
	0790	Other Property.

This is how rolling to the bold works for object codes in the 0700 series:

1. Object codes 0700 through 0709 and 0750 through 0799 will roll to bold object code 0700.
2. Object codes 0710 through 0719 will roll to bold object code 0710.
3. Object 0720 is bold and rolls to itself. Objects are not bold 0724 – 0729 roll to 0720.
4. Object 0721 is bold and rolls to itself.
5. Object 0722 is bold and rolls to itself.
6. Object 0723 is bold and rolls to itself.
7. Object 0730 is bold and rolls to itself. Object 0731, 0733, 0734, 0736, 0737, 0738 and 0739 are not bold and roll to 0730.
8. Object 0732 is bold and rolls to itself.
9. Object 0735 is bold and rolls to itself.
10. Object codes 0740 through 0749 will roll to bold Object code 0740.
11. Object codes 0750 through 0799 roll to bold Object code 0700

APPENDIX N

Note: All bold codes will exist in CDE’s database as unique items. Thus, for examples, 0732 Vehicles does not roll to 0730, and 0710 does not roll to 0700. However, items will be combined as appropriate for reporting purposes.

To meet local reporting needs, most districts will report at higher level(s) of detail than required by the Chart (as indicated in bold) for certain types of transactions. Thus, codes are predefined at a greater level of detail than required; these are the codes which are not bold. These unbold codes offer guidance and ease to districts which need to report at greater detail than provided for by bold codes alone.

In addition to predefined codes, the district is encouraged to add codes where needed. In many instances throughout this chart, notes have been included that say, “Codes ____ through ____ are available for district use.” However, even where such notes are not included, the district can add additional codes within the structure of predefined codes as long as data “rolls up” into appropriate bold account codes. Examples follow.

How to Use the “Rolling to the Bold Principle” When Adding Codes

Example. The district wants to be able to identify technology equipment purchases by major vendor. There are seven major vendors. Object code 0734 would be used first. Object codes 0736 through 0739 would be used next. The district would still need two more codes. Objects 0730, 0731 and 0733 could be used as long as the district is not using these codes for their predefined purposes and as long as the district is willing to make changes if any of these codes are made bold in the future. Objects outside the 0730 series could not be used for equipment purchases since expenditures outside the 0730 series would not roll to 0730, and, thus, such expenditures would not be recognized as equipment purchases.

CAUTION: In the future, if CDE is required to collect specific data that was not required to be collected when the Chart was developed, the addition of codes or bolding of predefined unbold codes might be necessary. If the district has used codes such as 0736 through 0738, and these codes are later defined and made bold, the district will need to make changes accordingly.

Summary of Roll-Up Rules

If the Fund, Location, Program, Object, Source, Balance Sheet, Job Classification or grant is **BOLD**, It rolls to itself.

When the Fund, Location, Program, Object, Source, Balance Sheet, Job Classification is not **BOLD** and ends in zero, it rolls to itself. When the Fund (or Location, Program, Object, Source, Balance Sheet, Job Classification) is not **BOLD** and does not end in zero, it rolls to the first Fund (or Location, Program, Object, Source, Balance Sheet, Job Classification) ending in zero. (Example – Funds 32 through 38 would roll to Fund 30).

DIRECT ALLOCATIONS

APPENDIX O

Source 5600 is no longer a valid code. Moneys moved into and out of the Capital Reserve Fund and Insurance Reserve Fund should now be treated as transfers, using Source Code 5200.

CHARTER SCHOOL ALLOCATIONS

Allocations to your Charter Schools ***MUST be recorded as described below*** so that CDE can identify these transactions in your Data Pipeline submission file.

This recording requirement is not intended to dictate treatment of charter school allocations on the district financial statements. Proper treatment of charter school allocations on financial statements is the responsibility of the district, often with input from the independent auditor.

Example of How Charter School Allocations must be recorded

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount
Rules: - The amounts debited and credited to 57XX must net to zero.							
Example:							
10	9XX	00	0000	<u>5711</u>	000	0000	-2000000.00
11	9XX	00	0000	<u>5710</u>	000	0000	2000000.00

PRE-SCHOOL ALLOCATIONS

Allocations to your Pre-School(s) ***may be recorded as described below***. *The use of Fund 19 is optional.*

Example of How Pre-School Allocations may be recorded

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount
Rules: - The amounts debited and credited to 58XX must net to zero.							
Example:							
10	000	00	0000	<u>5819</u>	000	0000	-1000000.00
19	000	00	0000	<u>5810</u>	000	0000	1000000.00

INTERNAL SERVICE ACTIVITIES**APPENDIX P**

The recording of user fee revenue generated by charging other funds within the district for services provided when such services are accounted for in internal service funds causes a double counting of revenues and expenditures when data from all funds are aggregated. To prevent the overstatement of revenue and expenditure amounts on CDE reports, districts must code revenues to the source codes listed below. Then, duplicated revenues which are generated from user fees can be identified and eliminated from reports.

Internal service user fee revenue MUST be coded to one of the following source codes:

- 1973 Internal Service Revenue - Employee Benefit Premiums
- 1974 Internal Service Revenue - Risk Management
- 1975 Internal Service Revenue - Print Shop
- 1976 Internal Service Revenue - Technology Services
- 1977 Internal Service Revenue - Warehouse Services
- 1978 Internal Service Revenue - Other

Recording transactions to Contra Accounts by School Districts using Internal Service Funds will be done through journal entry at year-end, but are not eliminated for audit reporting purposes. The entry shall be in an amount equal to the total of revenue recorded in Source Codes 1973-1978. The accounts to be used for this offset of revenue and related expenditures are as follows:

- 1979 Contra Account Source for Offset of Internal Service Fund(s) Expenditures.
Used to record negative revenue as an offset to the contra object code (0529) for risk-related Internal Service Funds. *Note: The purpose of this contra account is to provide a process to eliminate revenue received as a result of expenditures for services purchased by other funds.*

Example:

Throughout the year, employee benefit premiums are credited to 64.600.32.3200.1973.000.0000.

After the Data Pipeline file has been approved and everything is finalized, CDE will reopen the data file and the District will make the following journal entry to eliminate the revenue received as a result of expenditures for services purchased by other funds:

Debit – 64.000.00.0000.1979.000.0000 Credit – 64.800.28.2850.0529.000.0000

APPENDIX P

Example of a User Fee Transaction:

Assume the district print shop is accounted for in an internal service fund and has completed a print job for an elementary school instructional program.

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount	Description
10	1XX	00	0010	0550*	000	0000	100.00	User fee charged by district Print Shop
65	000	00	0000	1975	000	0000	100.00	User revenue

Note: Even though location codes and program codes are not required for revenue transactions, the district may find use of location codes and/or program codes in user fee revenue account strings helpful for identifying usage by specific programs or sites.

* Alternatively, an object 06xx supplies code may be used for print shop expenditures.

UNDERSTANDING CDE WARRANT (CHECK) STUBS

APPENDIX Q

All checks from CDE should contain a description on the stub which should allow districts to properly record these revenues without having to guess the correct account numbers.

All CDE checks reference the Grant/Project numbers included in the Grant/Project section of this Chart of Accounts. Attached is information to help you understand check stub descriptions and translate it into your account strings.

DISTRICT DEBT

APPENDIX R

The recording of District Debt in Fund 90 as balance sheet accounts is necessary in your electronic data file; they appear on your District Accountability Report: the District Report Card. The following balance sheet codes allow districts to report consistently. **Accurate information is crucial, as this information is a highly visible and scrutinized part of your Report Card. What you report will appear on your report card.**

The District Debt Balance Sheet Accounts you are required to report, **even if the amount is zero**, are the following:

- 7511 General Obligation Bonds Payable (Principal Only: Do Not Include Interest)
- 7512 Net Effective Interest*
 Note: if you do not know how to calculate net effective interest, you need to contact your bond underwriter.
 Note: if 5.25% is your net effective interest, then 525 would be entered in your amount field. See below.
- 7513 Amount Authorized from Most Recent Bond
- 7514 Year of Last Successful Bond Election**
 Note: if 2010 was the year of your last successful bond election, then 2010 would be entered in your amount field. See below.
- 7515 Total Issued from Last Successful Bond.
- 7519 Contra Account for balance sheet codes 7511-7515

Balance Sheet 7519 is established as a contra account. Balance Sheet 7519 should equal the sum of Balance Sheet codes 7511 through 7515. Use 7519 in your finance system to zero out district debt information. Note that in the example above. This Balance Sheet code has a negative dollar amount

VOTER APPROVED OVERRIDE

APPENDIX R-1

The recording of Voter Approved Override in Fund 90 as revenue source codes is necessary in your electronic data file. **Accurate information is crucial, as this information is a highly visible.**

The District Voter Approved Override revenue source codes are required to report effective FY14-15 (optional FY13-14), **even if the amount is zero**, are the following:

- 1170 Amount Authorized – Voter Approved Overrides
- 1171 Amount Collected – Voter Approved Overrides
- 1172 Amount Distributed to Charter Schools – Voter Approved Overrides
- 1173 Amount Distributed to Non-Charter Schools – Voter Approved Overrides
- 1174 Amount Retained by District – Voter Approved Overrides
- 1179 Contra Account - Voter Approved Overrides

Examples of How Voter Approved Override must be recorded

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount
90	000	00	0000	<u>1170</u>	000	0000	0000259500000

90	000	00	0000	<u>1179</u>	000	0000	-772391516

Revenue Source Code 1179 is established as a contra account. Revenue Source Code 1179 should equal the sum of Balance Sheet codes 1170 through 1174. Use 1179 in your finance system to zero out Voter Approved Override Revenue information.

BOND REFUNDING

APPENDIX S

Not all Districts with a Bond Redemption Fund (31) will have bond refunding. Bond refunding occurs when you refinance bond issuances. Debt is refinanced/refunded for a variety of reasons. Frequently, debt is refunded to take advantage of lower interest rates. It’s also refunded to extend maturity rates, revise payment schedules or remove restrictions contained in original (old/initial) debt agreements.

Regardless of the type of debt being refunded, all governmental entities that defease (annul/void) original debt through an advance of refunding should provide a general description of the transaction in the notes to the financial statements (in the district’s annual audit) in the year of the refunding. At a minimum, the disclosures should include (a) the difference between the cash flows required to service the old debt and the cash flows required to service the new debt and complete the refunding and (b) the economic gain or loss resulting from the transaction.

Bond refunding, and the sources of revenue associated with refunding must be recorded correctly so CDE can identify these transactions in your Data Pipeline submission file. Proper coding of bond refunding is the responsibility of the district, with independent audit notation under “Long Term Debt”. This coding requirement ensures proper Federal reporting required on the F-33 Report.

Source code 5111: Refunding Bond Proceeds. For current and advance refunding of General Obligation debt resulting in defeasance (the voiding of the previous debt), the face amount of the new debt should be reported as an other financing source. This source code must be used any time bonds are refunded. Note: if the new debt is issued in an amount greater than that required for the refunding, only that portion of debt service applicable to the refunding should be considered for source code 5111. Use source code 5110 for non-refunding new debt. Use source code 5400 or 5500 if it is not General Obligation Voter Approved debt.

Source code 5121: Refunding Bond Premium/Discount. When a bond is refunded there *may* also be a portion that is greater than or less than the face amount of the new debt (premium/discount) that should be coded as Source Code 5121.

Source code 5131: Refunding Bond Accrued Interest. When an original bond is refunded (defeased), there *may* be accrued interest related to the refunding bond issuance. If so, Source Code 5131, Refunding Bond Accrued Interest should be used to record that revenue.

Audit example: “Other Financing Sources (Uses)” section of the Statement of Revenues, Expenditures, and Changes in Fund Balance for Debt Service Fund (Bond Redemption Fund, Fund 31):

	Debt Service Fund	
OTHER FINANCING SOURCES (USES)		
Bond Proceeds	33,870,000.00	Code to Source Code 5111 (Refunding Bond Proceeds)
Payment to refunded bond escrow agent	(36,715,197.00)	Code to Object Code 0900 (Other Uses)
Premium on issuance	3,148,967.00	Coded to Source Code 5121 (Refunding Bond Premium/Discount)
Bond accrued interest	-	
Operating transfer in (out)	-	
Total other financing sources (uses)	303,770.00	

BOND REFUNDING**APPENDIX S**

When a General Obligation bond is refunded, **for audit presentation purposes**, in the “Notes to Basic Financial Statements”, under “General Obligation Serial Bonds”, there should be a statement of economic gain or loss. Similar Disclosures should be made for non-general obligation debt refunding.

Audit Example:**Refunding**

On May 26, 2005, the District advance refunded and defeased (debt legally satisfied) \$39,690,000 of General Obligation Unlimited Tax Refunding bonds, Series 2001A with an average interest rate of 5.20% by the issuance of \$41,475,000 General Obligation Unlimited Tax Refunding bonds dated May 26, 2005 with an average interest rate of 4.6%. The defeased bonds are not considered a liability of the District since sufficient funds (\$43,425,578) were deposited with a trustee and invested in U.S. government securities for the purpose of paying the principal and interest of the deposited bonds when due.

The District advance refunded a portion of the 2001A Series bonds to reduce its total debt service payments over the next sixteen years by \$1,294,802 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$1,257,711.

The District defeased certain bonds by placing the proceeds of refunding bond issues in irrevocable escrow accounts to provide for all future debt service payments on defeased bonds. The assets in these accounts and the liability for the defeased bonds are not included in the District’s financial statements. At June 30, 2005, the defeased debt was as follows:

General Obligation Bonds Payable	Date of Issue	Outstanding Principal Balance
Building Bonds	10/1/1995	\$5,965,000
Building Bonds	1/15/1997	\$29,450,000
Building Bonds	4/1/1998	\$10,540,000
Building Bonds	3/1/2001	\$39,690,000
		<hr/>
		\$85,645,000

CONSOLIDATED SCHOOLWIDE PROGRAMS

APPENDIX T

Section 1114 of Title I of the ESEA (NCLB) allows a school in which 40 percent or more of its students are from low-income families to use its Title I funds, along with other Federal, State, and local funds, to operate a school wide program to upgrade the entire educational program in a school to improve the academic performance of all students, particularly the lowest-achieving students. A school wide program school may consolidate funds from Title I, Part A as well as funds from nearly (except Reading First) all Federal elementary and secondary programs administered by the U.S. Department of Education to support its school wide plan.

If the district consolidates funds for the school wide programs, the district must follow the guidance provided in this Appendix.

To consolidate funds means that the district has identified the total pool of resources that will be used to implement the school wide plan for each specific school location and will charge the expenditure activities to an account coding that identifies each such school wide program. The school wide plan directs the level of activities that will be included or excluded from the total school wide budget for each school. For example, if the school wide plan only includes the instructional program (0010) activities, the total school wide budget may be as follows:

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount
Example:							
10	101	95	0010	<u>0110</u>	201	0000	100000000
10	101	95	0010	<u>0200</u>	201	0000	20000000
10	101	95	0010	<u>0600</u>	000	0000	5000000

The SRE code of 95 is used to identify the consolidated school wide plan. In this example the total school wide budget for school location number 101 is \$1,250,000. Let us also assume that the district’s General Fund (State and local) sources will provide \$1,000,000 (or 80%) of this total budget and that the Title I, Part A and Title III, Part A grant programs will provide \$200,000 (or 16%) and \$50,000 (or 4%) respectively.

All of the allowable expenditure activities related to this school’s school wide plan will be charged to the account code structure as identified above, using the specific school location code and the SRE code of 95.

Periodically, the allowable expenditure activities will be distributed to the various sources that contributed to the total school wide budget. This distribution may be in the same budget detail as is captured in the SRE code 95 structure or the object code of 0855 may be used as an option to the detailed object coding. Let us assume that one half of the total school wide budget has been expended to date or \$625,000 and that such expenditures have been captured in the same accounts as identified above. Of the \$625,000 total expenditures to date, the General Fund share is 80% or \$500,000, the Title I, Part A grant share is 16% or \$100,000, and the Title III, Part A grant share is 4% or \$25,000.

APPENDIX T

An example of the use of the 0855 object code is as follows:

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount
Examples:							
10	101	95	0010	<u>0855</u>	000	0000	-12500000
22	101	95	0010	<u>0855</u>	000	4010	10000000

22	101	95	0010	<u>0855</u>	000	4365	2500000
----	-----	----	------	-------------	-----	------	---------

Additional accounting lines will be needed to keep the various funds in balance. The above coding will distribute the Federal grant share of the total school wide program activities and will provide an offset to the General Fund to net its share. The detailed object coding would credit the same object coding as the detailed expenditures captured in the school wide accounts tied to the SRE code of 95 and would debit the same object codes for each Federal grant share of such activities.

CHARTER SCHOOL FOOD AUTHORITY (SFA)**APPENDIX U**

With the authorization of charter schools, including the Charter School Institute (CSI) to service as a School Food Authority (SFA) a specific and required method for capturing the activities of the Charter SFA and its related schools was identified and approved by the FPP Committee.

The charter school, including CSI, which is serving as the SFA will report all of the Food Service Program activities under the SFA within its Fund 21 – Food Service Fund and under Program 3100 – Food Services Operations. The use of Fund 21 is required if the SFA is receiving USDA school breakfast/lunch money.

To accommodate the unique coding needed to account for and report the financial activities between the SFA and its related schools, the following flow-thru codes were added to the Chart of Accounts. This is not a subgranting arrangement. The SFA continues to be the responsible party, and the related schools are only assisting the SFA with activities conducted on behalf of the SFA.

Source code **1956 – Services Provided Charter School Food Authority: (Local Level)**. Revenue for services provided between the Charter School Food Authority and its related schools. This revenue represents funds that were already recognized as revenue by the Charter School Food Authority and sent to the individual schools within the SFA, or revenue received by the contracting charter schools that needs to be recognized by the Charter SFA. Use of this code ensures that all intra-Charter SFA payments can be eliminated when consolidating financial data for reporting purposes. **Offset to Object Code 0596, used with the appropriate grant code, which may be zero.**

Source code **3956 – Services Provided Charter School Food Authority: (State Level)**. Revenue for services provided between the Charter School Food Authority and its related schools. This revenue represents funds that were already recognized as revenue by the Charter School Food Authority and sent to the individual schools within the SFA. Use of this code ensures that all intra-Charter SFA payments can be eliminated when consolidating financial data for reporting purposes. **Offset to Object Code 0596, used with the appropriate grant code.**

Source code **4956 – Services Provided Charter School Food Authority: (Federal Level)**. Revenue for services provided between the Charter School Food Authority and its related schools. This revenue represents funds that were already recognized as revenue by the Charter School Food Authority and sent to the individual schools within the SFA. Use of this code ensures that all intra-Charter SFA payments can be eliminated when consolidating financial data for reporting purposes. **Offset to Object Code 0596, used with the appropriate grant code.**

Object code **0596 – Purchased Services from Charter School Food Authority and its related schools**. This is the purchased service code to be used for purchased services between the Charter School Food Authority and its related schools in the 3100 Food Services Operations program area. **Offset to Source Codes 1956, 3956, and 4956, used with the appropriate grant code, which may be zero.**

This coding structure will also assist CDE in the isolation of the Charter School Food Authority and its related schools food services operations, including the CDE-5 reporting, from the individual district's food services operations.

APPENDIX U

To assist with applying and tracking the financial activities between the Charter School Food Authority (SFA) and its related schools, the Department has developed an optional Excel spreadsheet for use by the SFA and by each school of the SFA network. The spreadsheet includes multiple tabs for each school of the SFA network to track lunch meal data, breakfast meal data, and for financial data. The values for meal price, costs, and/or reimbursement figures should be discussed with and agreed to by the SFA. The sample spreadsheet is available at:

<http://www.cde.state.co.us/nutrition/nutricharterschools>

This spreadsheet will assist in tracking various Federal and State child nutrition grants. It is currently setup to track the following, but may be modified to include others as needed:

Grant code 4555 – Federal National School Lunch Program

Grant code 4553 – Federal School Breakfast Program

Grant code 3169 – State Start Smart Program.

On the meal tabs – the schools will input total meal counts for lunch and breakfast, if any, served by month for each specific month. An input form is available for each month of the fiscal year of 20xx-20xx. A separate form is available for lunch data and for breakfast data. In addition, the schools will need to input the total meals ordered information for lunch and breakfast, if any, for each specific month on the Meals Ordered (Monthly) line.

The financial data tab is linked with the lunch and breakfast meal data. The lunch and breakfast meal data will populate the specific month on the financial tab.

The financial data tab will reflect the income and expenditures generated by the lunch and breakfast meal data for each month. The lunch and breakfast meal data will also set up an Accounts Receivable from SFA (Balance Sheet (B/S) code 8142) for the calculated amount of State and Federal activities, as well as an Accounts Payable for the food costs.

Schools will also need to reflect the meal activity, including the following on their own accounting system:

- Credit – Source code 1956; Grant code 4555; Food Sales – Students Lunch
- Credit – Source code 1956; Food Sales – Adults Lunch
- Credit – Source code 1956; Grant code 4553; Food Sales – Students Breakfast
- Credit – Source code 1956; Food Sales – Adults Breakfast
- Debit – Object code 0596; Food – Lunch
- Debit – Object code 0596; Food – Breakfast
- Credit – Source code 4956; Grant code 4555; National School Lunch Reimbursement
- Credit – Source code 4956; Grant code 4553; School Breakfast Reimbursement
- Credit – Source code 3956; Grant code 3169; CDE Child Nutrition Reimbursement
- Debit – B/S code 8100; Cash
- Debit – B/S code 8142; Grant code 4555; Accounts Receivable – SFA (Lunch)
- Debit – B/S code 8142; Grant code 4553; Accounts Receivable – SFA (Breakfast)
- Debit – B/S code 8142; Grant code 3169; Accounts Receivable – SFA (CDE)
- Credit – B/S code 7421; Accounts Payable

APPENDIX U

An “adjustments” column is available for use by the school for each month of the fiscal year.

Mandatory entry – if net income (loss) reflects a (loss) for that specific month, a journal entry must be recorded to zero out the loss as follows:

Debit – B/S code 8100; Cash on the financial tab for the amount of the (loss)

Credit – Source code 1956; Subsidy from other funds (GF) for the amount of the (loss)

To keep the schools financial records balanced, an additional entry as follows should also be made (but not posted to this spreadsheet):

Debit – Source code 1990; Miscellaneous income for the amount of the (loss)

Credit – B/S code 8100: Cash

Due to the unique nature of the SFA and its related schools, specific coding is being used for this activity.

Source codes of 1956/ 3956/ 4956 and object code of 0596 are being used for the activity that must be reported for Financial Data Pipeline purposes by the SFA and its related schools.

Once the check is received from the SFA for the payment of child nutrition activities captured by the charter school on behalf of the SFA, the following entries should be made:

Debit – B/S code 8100: Cash for the amount from the SFA

Credit – B/S code 8141: Accounts Receivable – SFA

Note that a separate Accounts Receivable – SFA is set up for each specific activity. If the activity is related to the Federal lunch data, the grant code of 4555 should be used. If the activity is related to the Federal breakfast data, the grant code of 4553 should be used. If the activity is related to the State activity, the grant code of 3169 should be used.

Normally, the individual schools will not need to adjust the information coming from the meal data tabs.

Some additional possible entries that may be made by the individual schools (with SFA approval) are as follows:

If the school is tracking Accounts Receivable due from Parents, the following entries may be made:

Debit – B/S code 8153: Accounts Receivable – Sales

Credit – B/S code 8100: Cash

And when payments are received from the Parents to clear the Accounts Receivable amounts, the following entries may be made:

Debit – B/S code 8100: Cash

Credit – B/S code 8153: Accounts Receivable – Sales

APPENDIX U

If the individual school has been granted approval from the SFA to reflect additional operating expenses, the following entries may be made:

- Debit – Object code 0596: Salaries
- Debit – Object code 0596: Employee Benefits
- Credit – Source code 1956: Subsidy from other funds (GF)

Note that the specific line on the worksheet should be used for the allowable activity, but that all of the operating expenses are posted with the same object coding of 0596. Again, the school may not generate a net (loss), and therefore must use the Subsidy from the other funds (GF) line to cover any such deficit.

If the operating expenses are being moved from other expenditure lines within the schools General Fund, the following additional entries may be needed (but not posted to this spreadsheet):

- Debit – Source code 1990: Miscellaneous income for the total amount of the operating expenses being charged to the food service operation (Program code 3100)
- Credit – Object code used for the original operating expenses being reclassified.

It should be noted that if the additional operating expenses will not generate a net (loss) due to profits being generated by the program, the source code of 1956 and source code 1990 may be replaced with the use of B/S code 8100 – Cash instead.

If the school received income prior to the actual meal being served, the following entries may be made:

- Debit – B/S code 8100: Cash
- Credit – B/S code 7481: Deferred Revenue – Sales

If the food vendor was paid for the cost of the calculated meals, the following entries should be made:

- Debit– B/S code 7421: Accounts Payable for the amount paid to the food vendor
- Credit– B/S code 8100: Cash

Note that some additional lines have been included on the financial data tab for future expansion of the food service program. These additional lines should only be used with the approval of the SFA.

After the individual school has input and adjusted the meals and financial data for that specific month, the file should be saved and emailed to the SFA. The SFA will update their master file for each individual school, as well as for the SFA food service operations.
