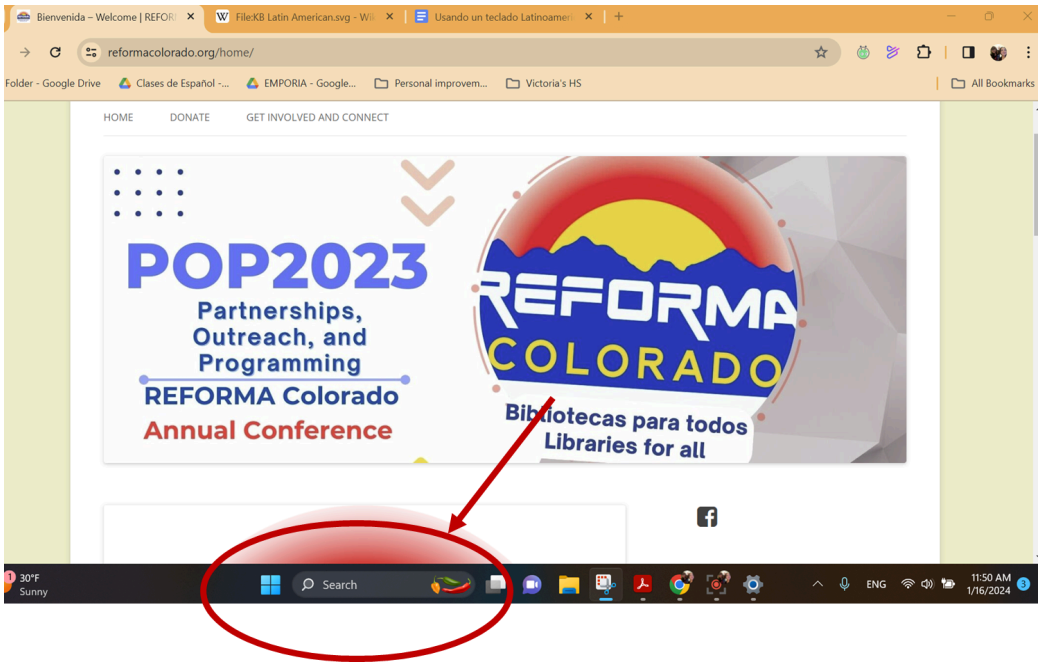
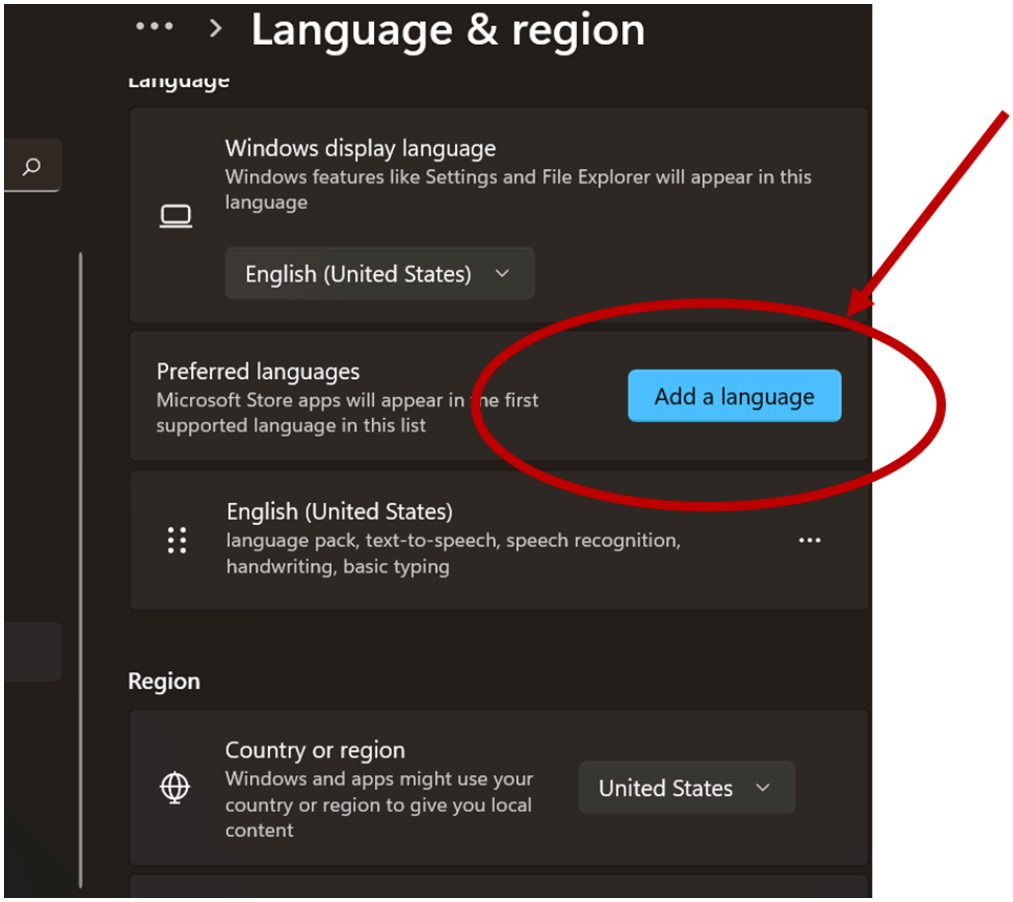
Para poder poner acentos fácilmente vamos a agregar un teclado con la configuración de América Latina.

Adding a keyboard:



Search for: **Add a language to this device**



Language & region
Windows display language
Windows features like Settings and File Explorer will appear in this language
English (United States)
Preferred languages
Microsoft Store apps will appear in the first supported language in this list
Add a language
English (United States)
language pack, text-to-speech, speech recognition, handwriting, basic typing
Region
Country or region
Windows and apps might use your country or region to give you local content
United States

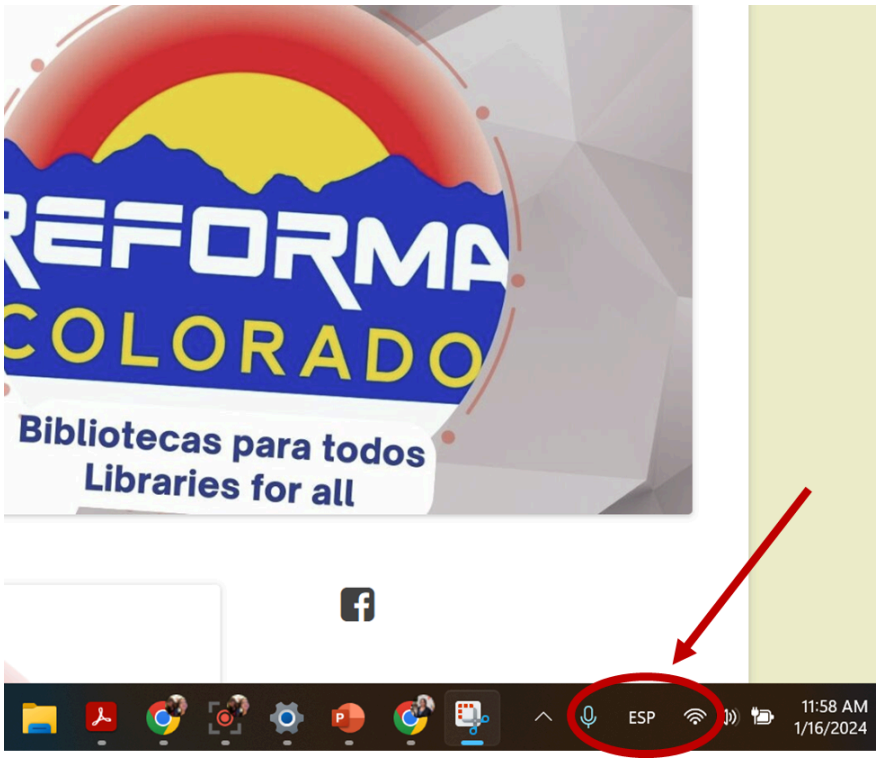
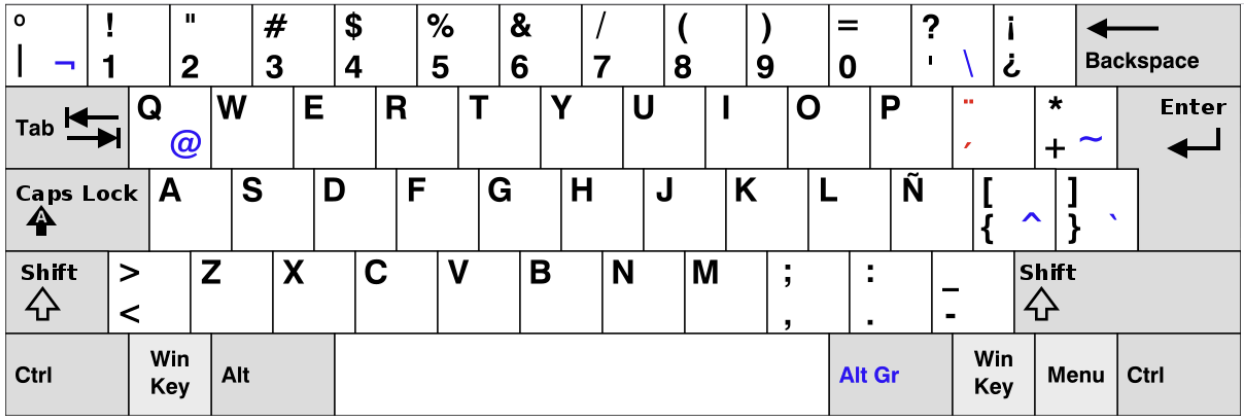
To switch between English and Spanish Keyboards press:

Alt + Shift





To write the accents press the accent key and release, and then press the letter. The accent key is next to the letter P

The keyboard also has the letter Ñ, it is located next to the letter L
