

# 2024-2025 Early Literacy Assessment Tool (ELAT) Project Application Information Webinar

February 15, 2024

Pursuant to C.R.S. 22-2-141

# Project Overview

https://www.cde.state.co.us/coloradoliteracy/elatapplicationprocess

### Introduction

- The 2012 School Finance Act required CDE to select a contractor to supply an early literacy assessment tool for teachers to obtain real-time assessment of K-3 students' reading skill levels.
- The ELAT Project supports <u>state purchase</u> of software that provides individualized assessments with immediate results, stores and analyzes those results, and recommends activities.
- Districts do NOT receive funds directly; CDE manages the funds and pays for the licensing at the state level.
- In 2023, through a competitive process, CDE awarded the ELAT Project contract to Amplify for mCLASS DIBELS 8<sup>th</sup> Edition and mCLASS Lectura.
- Pending legislative approval, CDE will offer the ELAT Project for the 2024-2025 school year.

#### Introduction

- ELAT participants will receive the online tool mCLASS to support the assessments DIBELS 8<sup>th</sup> Edition and, if applicable, mCLASS Lectura for Spanish-speaking students.
- ELAT participants will receive software licenses to use the assessment(s). The tool
  mCLASS will store and analyze the results and recommend school and home
  activities based on those results.
- Hardware is not included. Applicants will be responsible for providing their own hardware. A list of devices that support mCLASS is available here: www.amplify.com/assessment/devices

# Purpose

- An early literacy assessment tool is intended to help teachers meet the
  assessment requirements of the READ Act. The tool allows teachers to obtain realtime assessment of K-3 students' reading skill levels and, based on the results,
  generate intervention plans and materials.
- The assessment platform, mCLASS:
  - Provides individualized assessments with immediate results;
  - Stores and analyzes assessment results, recommends activities, assists in tracking student performance, and assists in identifying strategies to improve student performance;
  - Provides student grouping recommendations; and
  - Assists in generating and populating individualized plans to improve students' reading skills.

# **Eligible Applicants**

- All local education providers (LEPs) are eligible to apply.
- LEP means a:
  - School district;
  - Charter school authorized through a district or the CSI;
  - Public school within a district applying as a stand-alone applicant; or
  - Public school operated by a BOCES.
- The applicant must enroll students in kindergarten, first, second, and/or third grades.

# Priority

CDE is accepting applications from new and renewal applicants. If the number of applicants exceeds the number of available licenses, prioritization will reflect C.R.S. 22-2-14.

- 1. First preference will be given to LEPs renewing their ELAT participation from the 23-24 school year; then new applicants will be accepted.
- 2. If there needs to be a selection process for new LEPs, it will be based on highest percentages of K-3 students reading below grade level; and LEPs with the highest percentages of schools that are eligible to receive money under Title 1 of the federal Elementary and Secondary Education Act of 1965.

# **Duration of Program**

- 1. The current RFA will apply to the 2024-2025 school year (Year 12).
- 2. Participation in subsequent years is dependent upon appropriations and available licenses.
- 3. Anyone, new or renewal, who wants to participate in the 24-25 school year must apply.

# Required Activities—School- and district-level activities

- Complete and submit ELAT Project application.
- Obtain supported devices to assess all K-3 students on the approved interim assessment. (Hardware purchase is the LEP's responsibility.)
- Collect and submit staff and student roster data to Amplify:
  - Student information: name, grade, date of birth, 10-digit State Assigned Student ID (SASID), state, school district, school, classroom association(s), student email, gender, ethnicity, English language status, and eligibility for special education services and section 504.
  - Staff information: name and staff email address
- Assess all K-3 students at the three designated benchmark periods.
- Progress monitor students:
  - Scoring Well Below Benchmark every 7-10 instructional days
  - Scoring Below Benchmark every 10-12 instructional days
- Attendance at required training and onboarding webinars

# Required Activities—New Participants

# Additional requirements for new participants (new to mCLASS and/or new to the ELAT Project):

- Attendance by K-3 teachers or designated local trainers at face-to-face trainings and webinar trainings to support first- and second-year implementation and platform upgrade(s);
- Assurance that local trainers have training time with their teachers to implement what they have been trained on; and
- Attendance by principals at any scheduled instructional leader trainings and/or webinars.

#### LEPs will receive the following items upon application approval:

- 1. A welcome email from Amplify with step-by-step enrollment instructions to continue or get started;
- 2. Amplify DIBELS 8<sup>th</sup> Edition and/or Lectura licenses for K-3 students; and
- 3. One kit per grade level, K-3, per new school of DIBELS 8<sup>th</sup> Edition assessment materials and/or one kit per grade level, K-3, per new school of mCLASS Lectura assessment materials.

# **Evaluation and Reporting**

- Participants agree to share all data collected using the provided software. These data will be shared with Amplify and CDE.
- Data include:
  - Student identifier information: name, grade, date of birth, state, school, school district, classroom association(s), student email, 10-digit State Assigned Student ID (SASID), gender, ethnicity, English language status, and eligibility for special education services and section 504;
  - Staff identifier information: name and staff email address; and
  - Student outcomes: records and/or scores for the assessments listed as part of the assessment.
- Districts are still required to submit READ Act data through the Data Pipeline.
- Data collected are solely used by Amplify and CDE for the scope of successful project implementation: evaluating implementation fidelity and achievement/ growth results and directing professional development.

See the *Project Assurances and Authorization for Release of Personally Identifiable Information* for additional information.

## Project Assurances and Release of Information

- Applicants must obtain signature approval from the appropriate representatives on both the *Project Assurances* form and *Authorization for Release of Personally Identifiable Information* form.
- These forms do not need to be submitted to CDE; however, they must be kept on file through December 31, 2026, and be available for verification by CDE program staff.

## **Application Resources and Guidelines**

- 2023-2024 List of Colorado School Codes
- READ Act and English Learners: Guidance for Assessment and Determination of a Significant Reading Deficiency in Grades K-3:
  - Assessment guidance and consideration for multilingual students to inform requests of DIBELS 8<sup>th</sup> Edition and/or mCLASS Lectura licenses.

#### Application guidelines for multiple schools applying in a single application:

- Licenses and data of all schools submitted in a district, CSI, or BOCES application will be under the district, CSI, or BOCES umbrella license.
- Charter schools who manage enrollment separate from their authorizer will need to apply to ELAT individually and *not* be included in the district or CSI application. With Amplify's support, charter schools can be linked to their district authorizer's mCLASS account for districts requesting access to charter school's data.

# Application Resources and Guidelines

#### Signature guidelines for applicants applying as a single school:

- The named LEP will be the school's authorizer, either the local district, CSI, or BOCES.
- The authorized representative should be a representative from the district/CSI/BOCES and <u>not</u> a school-level representative.
- The representatives from the LEP, not the school, should provide the signatures for both the *Project Assurances* and *Amplify Authorization for Release of Information*.

#### **Submission Process and Deadline**

- Applications are due Wednesday, April 10, 2024.
- The online application is linked in the RFA.
- The RFA contains a worksheet that will help you gather the necessary information.
  - The application form does not save work in progress.
- The application must be completed online using the online form.
- Late or incomplete applications may not be accepted based on the number of complete applications submitted by the due date.
- Once submitted, your application will be reviewed by CDE staff to ensure it is complete.
- The person who submits the application will receive an email notification confirming receipt.
