Immigrant - USDE Definition under Section 3301(6) Title III

A child is an immigrant if he/she is age 3 through 21 and was not born in any state and has not been attending one or more schools in any one or more States for more than 3 full academic years. The term 'immigrant children' means individuals who:

1. Are ages 3 through 21; **AND**
2. Were not born in any State; **AND**
3. Have not been attending one or more schools in any one or more States for more than 3 full academic years.

1	Yes

Important items to note about immigrants:

1. "States" are defined in legislation as the 50 states, Washington D.C., and Puerto Rico.
2. Determining the legality of a student's immigration status is not a duty of the local school district. Undocumented children have the same right to attend public schools as do U.S. citizens and permanent residents. In fact, the student's parents and the district officials have an obligation to see that the students attend school as mandated by the Colorado School Attendance Law.
3. "Three full academic years" (number 3 above in the definition) is cumulative

2016-2017 Student Interchange – Student Demographics

NOTE

English Learner – The Colorado state definition of an English learner, as defined by the ELPA Act, is a student who is linguistically diverse and who is identified using the state-approved English language proficiency assessment as having a level of English Language Proficiency that requires language support to achieve standards in grade-level content in English. This includes:

- English learners that speak a language other than English and do not comprehend or speak English,
- English learners who comprehend or speak some English but whose primary comprehension or speech is in a language other than English,
- English learners who comprehend and speak English and one or more other languages but whose English Language Development and comprehension is: at or below the mean of students enrolled in the local education provider or below the mean or equivalent on a nationally standardized test; or below the acceptable proficiency level based on the assessments identified by the Department pursuant to section 22-24-106 (1) (a)

Students who have been identified as English Learners, either Non-English Proficient (NEP) or Limited-English Proficient (LEP), **MUST** be provided with some type of language services whether through a Bilingual or an English as a Second Language (ESL) program. (Note: Districts are not required to test PK students for English skills, however, if a test is given and a student is found to be NEP or LEP, services must be provided.)

For the Student End of Year (EOY) Collection:

Student End of Year for English Learners is a summation of the previous school year, not a reporting of the status of the student for the next year. If a student is reported as NEP or LEP in Student October and/or takes the WIDA/Access English language proficiency test, then that student should be reported as NEP or LEP receiving Bilingual/ESL program services or parental refusal of Bilingual/ESL services in the Student End of Year collection.

An English Learner, as defined for Student End of Year purposes, is a student who has a Language Background other than English (ENG) and at any point throughout the school year was served or monitored by either a Bilingual or an English as a Second Language (ESL) program.

Language Background - Any student, who has a language proficiency code of Non English Proficient (NEP), Limited English Proficient (LEP), Fluent English Proficient (FEP), Primary or Home Language Other Than English (PHLOTE), or Former EL (FELL), must have a language background other than English (ENG). You can download an excel file with the list of active and inactive language codes from this site:

http://www.cde.state.co.us/datapipeline/org_language_codes.

Coding ASL (American Sign Language)

While ASL is a recognized language, these fields are meant to describe languages of second language learners as they relate to ESL/Bilingual programming. If the student is in fact an EL, the language background would not be ASL; it would be something other than “eng”, such as Spanish. If it is determined there is a language influence other than English (ASL is considered English for EL programming purposes), then the process of identification would begin and would follow the District policy – W-APT testing, build a body of evidence, and a language proficiency of NEP or LEP determined.

2016-2017 Student Interchange – Student Demographics

NOTE: Not all persons living in the situations described would be considered homeless. Two major factors to consider when making a determination are the adequacy and permanence of the housing. Which to use: Bilingual or ESL ?

- It is up to the District to determine the program that best describes the student’s English language development educational setting.
- For parent refusal of services: Again, it is up to the District to determine the program that best describes the program from which the parent/guardian has refused English Language Development services.

To determine “Redesignated” status:

Students in a language acquisition program may be ready to be redesignated into a two-year monitoring period (Monitored Year 1 and Monitored Year 2) as outlined by Office of Civil Rights criteria and Title III, Section 3121(a)4.

Definition of a “Redesignated status” student:

1. Has achieved a “Fluent” category on a reliable and valid language proficiency assessment

2016-2017 Student Interchange – Student Demographics

2. Has achieved age and grade level academic achievement standards and proficiencies commensurate to the achievement of mainstream students at a partially proficient level. After one year of monitoring, it is the district’s decision as to whether to place the student back into a language acquisition program or to monitor for a second year.

To determine if a student is eligible for “Exited” status: After a two year monitoring period, district personnel must evaluate if a student is ready for formal exit from the bilingual or ESL program. It is the district’s final decision as to whether or not the student is ready for exit based on the following criteria. Exited students are no longer monitored, but must be reported as exited (Bilingual or ESL status =4) for the remainder of their time in the district. Exited status:

1. Has achieved a “Fluent” category on a reliable and valid language proficiency assessment
2. Has achieved age and grade level academic achievement standards and proficiencies commensurate to the achievement of mainstream students at a partially proficient level.

8	Dropout Recovery at Community College A dropout recovery program allowing a student who has dropped out of high school, or a student who is at-risk of dropping out of high school, to complete his or her high school graduation requirements exclusively at the community college. Any individual age 16 to 21 who has dropped out of school may participate with the permission of the school district. A participating student who is enrolled in at least seven credit hours per semester is counted as full-time in the school district's funded pupil count.	Age: 16 to 21
9	Carry Forward ASCENT Accelerating Students through Concurrent Enrollment. A program which allows concurrent enrollment in postsecondary courses, including academic courses and career and technical education courses, in the year directly following the year in which a student was enrolled in the twelfth grade of a local education provider and has met graduation requirements. This value should be used when a student is in the ASCENT program and the district is using an ASCENT slot from a prior year. This would mean the district did not use all the ASCENT slots allocated by CDE in the prior year and decided to carry the slot forward to the next year. Note: All Carry Forward ASCENT slots need to be used before current year ASCENT slots can be used.	12 Only
