

2023-2024 Special Education IEP Interchange – Child File

Purpose:

The purpose of the Special Education Child File is to capture and verify the attributes of children with disabilities while he/she attended your AU at any point during the current reporting period.

Dependencies:

- Student has been assigned a SASID (if required) obtained from the RITS system. For students without a SASID, this field is zero-filled and LASID is required.
- If student has been assigned a LASID by the district, the LASID reported in the Child File must match the LASID reported by the district in the Student Interchange files.
- A record with the student’s SASID and or LASID combination also exists in the Special Education Participation File.

Important! If there is not a matching record in the Participation File, the record will not be included in the snapshot.

Record Expectation:

There should be a record for each student who was referred, evaluated, or received special education services in your Administrative Unit or State Operated Program.

Use Summary: (Fields from this file are used in the following CDE Collections which require LEA/AU effort):
