Additional Field Information:

Sequence Number:

A unique seven character alphanumeric code assigned to each record, generated by Data Pipeline. This number cannot be changed.

~~Reporting District Code~~ Responsible District Code:

The district code where the student is enrolled at test administration. This district will receive student reports and will also be used as the district for accountability calculations and public reporting of assessment results. Use the four-character code assigned to the district by CDE.

Note: If the student did not take the assessment in your district and the student score needs to be transferred to another school in another district (this situation is rare), follow the steps below:

1. Contact the receiving district and get approval to transfer the student's scores there.
Submit a Failsafe form TO CDE using Syncplicity to request that CDE transfer the score to the new district.
2. Send an email to SBD support at CDE (sbdsupport@cde.state.co.us) indicating that there is a file in the Syncplicity folder. If you do not let SBD Support know about the file in Syncplicity, the file will be overlooked and the transfer will NOT take place.
Use the link below and navigate to "Templates" to get a copy of the Failsafe form: [ACCESS for ELLs collection Website \(https://www.cde.state.co.us/datapipeline/per_access-ell\)](https://www.cde.state.co.us/datapipeline/per_access-ell)

- If you enter a date that is later than the date of first enrollment according to CDE's enrollment records, you will receive an error message. In this case, we recommend that you fill this field with 8 zeros and CDE will provide the earlier date.
- If you do not know the date of first enrollment, you may fill this field with 8 zeros. If information is available, CDE will provide the date of first enrollment.

2024-2025 ACCESS for ELLs Student Biographical Data (SBD) Review

- If you fill this field with 8 zeros and CDE has no prior enrollment information, you will receive an error message. In this case, use the table below to determine the date to use for date of first enrollment. You may need to work with the District Data Respondent or a school registrar to find the entry type code for a student.

0 = No; 1 = Yes

NOTES:

- The scores of expelled students will not be included in school level reporting but will be included for all district level and state level reporting.

Clusters

- **Cluster - Listening**
- **Cluster - Reading**
- **Cluster - Speaking**
- **Cluster - Writing**

2024-2025 ACCESS for ELLs Student Biographical Data (SBD) Review

The value for each of the clusters is provided by WIDA and identifies the grade cluster in which the student actually tested for each domain. The value for clusters cannot be changed during the SBD Review Process. The clusters are provided in the SBD file for your information.

NOTES:

- If a cluster is blank, check to see if there is another record for the same student (based on SASID) where that cluster is not blank. In that case, make sure that the demographic data in both records are the same. Do not remove or invalidate either record.
- If a cluster is blank and there is no other record for that student (based on SASID), then the student did not complete that domain and will not receive scores for that domain or any composites that include it. In this case, if you are certain that the student did in fact complete that domain, contact SBD support.
- CDE will invalidate the scores of students who tested in the incorrect cluster for their grade.

The table below shows the valid cluster based on a student’s grade, the mode of administration (paper or online) and whether the student took the general or alternate assessment. The values in the table below apply to all 4 domains.

Student’s Grade	General Assessment Paper Valid Cluster	General Assessment Online Valid Cluster	Alternate Assessment Paper Only Valid Cluster
Kindergarten	0	NA	0
Grade 1	1	1	0
Grade 2	2	2	0
Grade 3	3	2	3
Grades 4-5	4	4	3
Grades 6-8	6	6	6
Grades 9-12	9	9	9

Do Not Score Codes

- **Do Not Score Code - Listening**
- **Do Not Score Code - Reading**
- **Do Not Score Code - Speaking**
- **Do Not Score Code - Writing**

The following Do Not Score (Invalidation) code indicates that a domain should not be scored. Please review this information carefully. The use of this code should have been discussed with CDE staff at the time of test administration. In 2023-24, this set of fields became not updateable during SBD but is provided for your information and review.

NOTES:

- Participation rates are NOT calculated for ACCESS for ELLs; therefore, an invalidation code on a student’s score will have no impact on the participation rate for your district.

2024-2025 ACCESS for ELLs Student Biographical Data (SBD) Review

- If a student’s score is invalidated in at least one domain, that student will not be included in growth model calculations. Since the growth model requires a minimum of two consecutive years of scores, the student will not receive growth information for the current year or for the following year.

Code	Explanation
INV	Invalidation: Even though a student may have completed some or all of the test items, the testing was not valid and no score should be reported for that domain.

DRC Student ID

Unique identification number assigned to the student by WIDA.

Assessment Type

Indicates whether the student took the General ACCESS for ELLs or the Alternate ACCESS for ELLs assessment. Students taking the Alternate ACCESS for ELLs assessment must have an IEP and a Primary Disability indicated.

A number assigned by WIDA for each record associated with a student. If a student has more than one record in the file, the value for the first record is 1, the second record 2 and so on.
