# **Proficiency Goal**

## Scenario 1

Your class is working on a web page for your international partner students in Dijon, France. Your assignment is the entertainment section of the site, where you will share some of your favorite forms of entertainment. You have also been asked to include your opinion about one specific event/performance.

Some of the things that will want to include in the written portion of the site are:

- A description of your favorite form of entertainment with specific examples.
- Your opinion about a specific movie, video game, TV show, concert, or athletic performance (game, race, match, etc.)

Feel free to add anything else you can already write in French that would let your partners know more about the type of entertainment you and other American students enjoy.
