---

Hello Accountability Contacts: Happy Valentines week! Yep, extending a day of caring to a full week seemed about right to me. Just sending along a few updates on state and federal accountability for 2022, an extension on the TLCC survey window and information on the UIP template rollover. As always, let me or my colleagues know if you have any questions. Thanks for all that you are doing, Lisa Medler

### 2022 Transitional Accountability

I don't really have news on this front yet beyond what I shared in the [January 11 communication](#). We are expecting 2022 transitional accountability legislation to be introduced soon and will keep you posted. On the federal side, the department is preparing a waiver on federal identifications (e.g., comprehensive support and improvement, targeted support and improvement) for public comment. Once that is available, I will send out another communication with more information – probably by early next week.

### TLCC Survey Window Extension to March 4

Thanks for your terrific work on the Teaching and Learning Conditions in Colorado (TLCC) Survey. We've already had *over 38,000* teachers and building leaders complete the survey – but we are still shy of the 50% mark statewide. With requests for more time from the field and due to COVID19 impacts, we are extending the survey window to the end of the day on **Friday, March 4**.

*Survey Codes.* If school staff have not received codes or have misplaced them, Cambridge (our survey administrator) can provide new ones. Codes are available in multiple ways: (1) self service portal at <http://tlcc-sign-up.cedu.io/> or the (2) online support form at <https://app.cedu.io/support> or (3) Help Desk by toll-free number at 866-329-1530 (Mon-Fri 8am – 4pm MT) or email at [support@cedu.io](mailto:support@cedu.io).

*Data Release.* Schools and districts that meet the participation threshold of 50% participation (and at least five respondents) will be able to access their data this spring. We should be able to share the data with districts a week before it is released publicly. Once we have more concrete dates, then we'll send out another communication.

Please let me or Lisa Steffen ([steffen\\_l@cde.state.co.us](mailto:steffen_l@cde.state.co.us)) know if you have additional questions.

### UIP Template Rollover

The UIP template will roll over on April 15, changing from the 2021-22 template to the 2022-23 template. With the timeline shift to an October 15th UIP submission, CDE will keep the milestone date of April 15 to support districts and schools in initiating improvement planning processes in the spring. Once the template rolls over, school users will only have access to the UIP template for 2022-23; district users will still be able to access previous UIPs and feedback.

*UIP Feedback from CDE (for districts with schools on the accountability clock or identified CS under ESEA).* Please note the Unified Improvement Plan (UIP) Feedback for plans submitted October 15<sup>th</sup> for CDE review will not be available for viewing by school level users once the template rolls over to the new year.

*New Resource!* The School Improvement and Planning team has created a dashboard for district level users to view UIP feedback. This feature will be most useful for districts with multiple feedback schools receiving feedback. The UIP Review Feedback for District Users dashboard is available now. User guidance for navigating the dashboard will be posted by the end of the week at <https://www.cde.state.co.us/uiip/uiip-online-system>

*Incorporating Feedback* Schools receive feedback on planning needs and requirements based on state and/or federal identification. As schools are preparing plans for 2022-23, and questions arise about the feedback and associated requirements, contact your [support coordinator](#) or email the School Improvement Planning team at [uiphelp@cde.state.co.us](mailto:uiphelp@cde.state.co.us).

*Authorized Representatives* District staff responsible for ESEA programs will need to connect with online UIP district level administrators to access feedback for Comprehensive Support (CS) identified schools, as program feedback is consolidated in one feedback form. Feedback on CS requirements is available through the report available on the dashboard. If you need support identifying staff with those permissions in your district, please contact [uiphelp@cde.state.co.us](mailto:uiphelp@cde.state.co.us).

To access the feedback on individual UIPs in the UIP Online system,

1. For district users, navigate to UIP>UIP Name>UIP Home>Collaboration>UIP Feedback
2. For school users, navigate to Collaboration>UIP Feedback

For district users: To access a district summary of feedback in the UIP Online system, select the “Feedback on UIPs” tab. The dashboard provides summary information; “View Report” can be selected at the bottom of any component to view more detailed feedback reports.

If you have any questions about the UIP rollover or about the feedback process, contact Erin Loften ([loften\\_e@cde.state.co.us](mailto:loften_e@cde.state.co.us)) or Susan Barrett ([barrett\\_s@cde.state.co.us](mailto:barrett_s@cde.state.co.us)).
